Q3	29-Oct-25	Sammaan Capital Ltd	EGM	Management	To create, offer, issue and allot the following securities, by way of a preferential issue on a private placement basis for cash consideration to Avenir Investment RSC Ltd, a restricted scope company incorporated under the laws of the United Arab Emirates with PAN AAYCA9240R and having its permanent address at Office 3701 and 3712, Floor 37, Addax Port Office Tower, Tamouh, Al Reem Island, Abu Dhabi, United Arab Emirates (Investor) on such terms and conditions as set out in the Share Subscription Agreement dated October 2, 2025 as executed between the Company and the Investor (the SSA) and subject to applicable laws and regulations and in accordance with Chapter V of the ICDR Regulations (Preferential Issue).	FOR	FOR	The company proposes to raise equity capital from Avenir Investment RSC Ltd leading to a dilution of 43.46% on the expanded capital base. Avenir Investment will be classified as promoter. Along with IHC Capital Holdings LLC, Avenir Investments has made an open offer to acquire 341.7 mn shares from the open market. If the open offer is successful, Avenir and IHC together will hold 43.5% equity in the company as promoters. Although the dilution on account of the equity infusion is high, it is not prejudicial to the residual shareholders for Samman Capital to have an anchor investor / promoter at this stage. The capital infusion strengthens company's balance sheet and will help fund its future growth. The investment structure, combining equity shares and Subscription Warrants, ensures capital access is aligned with the Company s phased funding needs. The balance 75% amount in respect of the Warrants will be received upon conversion over a period of up to 18 months and will allow deploying capital efficiently. The Issue Price of INR 139/- per share is higher than the floor price determined under the ICDR Regulations (INR 138.67/-) and is in excess of the value of the shares determined by the Independent Valuer (INR 132.24/-). Samman Capital s capital adequacy levels were comfortable at 29.2% on 30 June 2025: the equity infusion will provide the NBFC with growth capital. The equity raise is legally compliant and hence we support the resolution.	N/A	No
Q3	29-Oct-25	Sammaan Capital Ltd	EGM	Management	Amendment to the Articles of Association of the Company and Grant of Special Right of Pre-emption to Identified Shareholder of the Company.	FOR	FOR	Post the proposed capital infusion from Avenir Investment RSC Ltd, the company has proposed amendment of AoA and grant special right of pre-emption to Avenir Investment RSC Ltd. Such insertion grants Avenir Investment RSC Ltd the right of first offer on all future security issuances while it remains a promoter, such that it prevents itself from getting diluted. This right will apply to all equity, convertible instruments, warrants, etc. The right does not disadvantage minority shareholders it allows promoters the first right to subscribe to the degree of their shareholding in subsequent capital raises. The resolution is legally compliant and hence we support the resolution.	N/A	No
Q3	29-Oct-25	Sammaan Capital Ltd	EGM	Management	Amendment to the Articles of Association of the Company and Grant of Special Right Regarding Directors Nomination to Identified Shareholder of the Company.	FOR	AGAINST	Post the proposed capital infusion from Avenir Investment RSC Ltd, the company has proposed amendment of AoA to grant board nomination rights to Avenir Investment RSC Ltd till it is classified as promoter. The proposed insertion allows the Investor to appoint a minimum of three directors on a seven-member board as long as it is promoter. In case the board size expands, Avenir Investment will have the right to nominate the majority of directors on the board. These rights will be in existence, till Avenir Investment is classified as promoter independent of the shareholding. Therefore, in case Avenir Investment s shareholding reduces either through sale or dilution it will continue to hold these board nomination rights. We believe board nomination rights must be linked to a shareholding threshold: we support board nomination rights in the ratio of shareholding, with some baseline shareholding. Further, Independent Directors are to be selected from a pool of candidates recommended Avenir Investment: we believe the selection and appointment of Independent Directors is the board / NRC s prerogative. Hence we do not support the resolution.	G	No
Q3	29-Oct-25	Sammaan Capital Ltd	EGM	Management	Amendment to the Articles of Association of the Company regarding board Process.	FOR	AGAINST	Post the proposed capital infusion from Avenir Investment RSC Ltd, the company has proposed amendment of AoA to remove casting vote rights for the Chairperson. The proposed insertion requires Board decisions to be by majority vote; Chairman to be an independent director and will not have a casting vote. Although, these changes foster a more participative and democratic board environment, in the current context the Resolution#3 empowers Avenir Investment RSC Ltd to appoint the majority of the Board, while Resolution #4 proposes that Board decisions be determined by majority votes. Taken together, these provisions do not enhance balanced governance but rather consolidate control in the hands of a single shareholder. Hence we do not support the resolution.	G	No

Q3	29-Oct-25	Sammaan Capital Ltd	EGM	Management	Amendment to the Articles of Association of the Company and Grant of Special Right Regarding Committees to Identified Shareholder of the Company.	FOR	AGAINST	The amendment allows Avenir Investment, as long as it is classified as promoter, to appoint nominees on the audit committee and the nomination and remuneration committee and appoint either a majority of the directors or the chairperson of the stakeholder relationship committee and the risk management committee. We do not support committee nomination rights since the determination of committee composition is the board s prerogative and must be decided by the board independently. Hence we do not support the resolution.	G	No
Q3	29-Oct-25	Sammaan Capital Ltd	EGM	Management	Amendment to the Articles of Association of the Company and Grant of Special Right to Information to Identified Shareholder of the Company.	FOR	FOR	The amendment enables the investor to access and disseminate information it receives as promoter, also across its affiliates. The company has clarified that such sharing will be strictly in compliance with applicable laws, including the SEBI (Prohibition of Insider Trading) Regulations, 2015, which prescribe safeguards for sharing of unpublished price sensitive information (UPSI). The sharing of information by the investor with its affiliates will be for legitimate purposes only, requiring documentation in a structured digital database, sharing on a need-to-know basis, and adherence to compliance processes in case of any potential trades by persons having access to such information. Further, the clause limits additional disclosures to the investor to those required for legal or tax compliance. Based on these clarifications, we support the resolution.	N/A	No

MHPL has undertaken two projects: (i) a residential project in Bengaluru which is completed; and (ii) project Luminaire, a group housing project in NCR, which is close to completion of its third and final phase. MLDL proposes to acquire the balance shareholding (equity and compulsory convertible preference shares) from Actis, a third party, for a consideration of Rs. 864.0 mn. Upon completion of the acquisition, MHPL will become a wholly owned subsidiary of the company. Given the project specific nature of the cash flows, the company has not relied on a peer comparison to determine the fair value of the transaction. They have relied on the valuation report which has used the discounted cash flow method to arrive at a valuation of Rs. 864.0 mn. As per the report, the company has provided projections of its ongoing projects, which are expected to be completed by September 2026. The valuer has relied on this method since the business operations and associated cash inflows can be reasonably estimated over this small and defined horizon. The company has also clarified that the valuation takes into account the future potential cash flows, cash and bank balances and subtracts the outstanding borrowing and discounts the same at the Cost of Equity calculated. Given this, we support the resolution.	N/A	No

It is to be noted that the said alternation is a part of the terms of the investment agreement entered with Emirates NBD. The revision to Article 89 updates the reference to RBI-prescribed voting limits (currently 26%), ensuring ongoing compliance with law. The number of directors on the board and revising the quorum and independence requirements for board meetings (Articles 102 and 116) improve board effectiveness and oversight. The same is in line with legal requirements as well. Hence, we support the resolution.	N/A	No

Q3	12-Nov-25	RBL Bank Limited	EGM	Management	To consider and approve a Cap of 24% on the Aggregate Foreign Ownership.	FOR	FOR	The proposed cap of 24% on aggregate foreign ownership is a temporary and precautionary measure to preserve sufficient headroom for Emirates NBD Bank (P.J.S.C.) to acquire a controlling stake in RBL Bank as per the Investment Agreement. The restriction ensures that any increase in foreign portfolio investments during the approval period does not inadvertently breach the existing 49% automatic foreign investment limit, which will go upto 74% after requisite approvals are received. This aligns with the Foreign Exchange Management (Non-Debt Instruments) Rules, 2019 and the FDI policy for private sector banks, which permit foreign ownership of up to 74% with government approval. The cap will automatically adjust to 74% upon completion of the transaction or revert to 49% if the transaction is terminated. As given in the notice, as on 10 October 2025, the foreign ownership in the bank was 20.84%. We support the resolution.	N/A	No
Q3	12-Nov-25	RBL Bank Limited	EGM	Management	Scheme of Amalgamation of Emirates NBD Bank (P.J.S.C.), India Branch (hereinafter referred to as the Transferor Bank) into and with Transferee Bank.	FOR	FOR	The amalgamation of RBL Bank Limited with the India branch business of Emirates NBD Bank (P.J.S.C.) is necessitated by RBI s requirement that foreign banks maintain only one mode of presence in India. The merger will consolidate Emirates NBD s three Indian branches into RBL Bank, strengthening RBL s capital base, expanding its corporate banking franchise, and providing access to Emirates NBD s global expertise and network. Emirates NBD s India business is profitable, with strong capital adequacy and zero NPAs. The consideration of Rs. 24.4 bn will be settled through the issue of 87.1 mn equity shares of RBL Bank, valued on a book value basis appropriate for a transaction between regulated banking entities rather than a market acquisition. Post amalgamation, Emirates NBD Bank will hold a 62.1% equity stake in RBL Bank, becoming its promoter. We support the resolution.	N/A	No

Q3	20-Nov-25	Ambuja Cements Limited	TCM (Equity S	Management	Scheme of Arrangement between Sanghi Industries Limited and Ambuja Cements Limited and their respective shareholders under Sections 230 to 232 and other applicable provisions of the Companies Act, 2013.	FOR	FOR	Sanghi Industries Limited (Sanghi) is a 58.05% subsidiary of Ambuja Cements Limited (Ambuja). As per the scheme, Sanghi will merge into and with Ambuja. 12 equity shares of Ambuja will be issued to shareholders of Sanghi for every 100 shares of Sanghi. Also, the existing promoters of Sanghi, apart from Ambuja, will also receive Ambuja shares but will be reclassified as public shareholders without any special rights. In total, ~13.0 mn Ambuja shares will be issued, which will lead to a dilution of 0.52% on the expanded capital base of Ambuja. The valuation for Sanghi and Ambuja is based on the income approach (50%), Market price approach (25%) and market multiples approach (25%). Given that Ambuja and Sanghi are both listed on the stock exchanges, we believe that share swap ratio should have been derived based on the market price approach. Notwithstanding, the implied value per tonne of capacity metric for Ambuja and Sanghi broadly aligns with peers. This merger will strengthen operational and financial synergies between Ambuja and Sanghi and simplify group structure. We support the resolution.	N/A	Yes

Originally , the vesting period is unusually long at 40 years, which neither provided an incentive mechanism nor a retention incentive for employees. Now they are making changes in the same, but still vesting period would be 40 years for many of the beneficiary. It does not fulfil the purpose of ESOPs. Given the reasons including lack of clarity on Exercise price and performance conditions, excessive vesting duration, and discretionary powers retained by the NRC, we do not support the proposed amendments. Q3	07-Dec-25	Triveni Engineering & Industries Limited	TCM (Equity S	Management	Scheme of Arrangement amongst Triveni Engineering and Industries Ltd, Sir Shadi Lal Enterprises Ltd and Triveni Power Transmission Ltd. and their respective shareholders and creditors under Sections 230-232 of the Companies Act, 2013.	FOR	AGAINST	The company proposes to enter into a two-step scheme of arrangement with Sri Shadi Lal Enterprises Limited and Triveni Power Transmission Limited. The company first proposes to amalgamate Sri Shadi Lal Enterprises Limited with itself and issue equity shares to the residual shareholders of SSEL. The dilution, as a result of this issue, is low at ~1.7%. From a valuations standpoint, the transaction will be executed at an EV/Revenue of 1.9x, which is in line with peers. Through the second step, the company proposes to demerge the Power Transmission Business Undertaking (PTB) to Triveni Power Transmission Limited (TPTL) currently a wholly owned subsidiary. It is then proposed to list TPTL on the stock exchanges, thereby unlocking value for shareholders. While we understand the rationale for separating the businesses, we raise concern that TEIL proposes to retain a 30% equity stake in PTPL post the demerger. The rationale for holding ~30% post the demerger of the business is unclear. We understand that the economic interest of shareholders, as a result of this demerger, remains unchanged. However, we raise concern that by retaining ~30% shareholding in TPTL, the voting rights for the Promoter group increase from ~61% - had it been a mirror shareholding demerger to ~73%. We believe these incremental voting rights are disproportionate with the actual economic interests of the promoters, without a clear rationale to this structuring arrangement. Hence, we do not support this resolution.	G	No

Q3	08-Dec-25	Swiggy Ltd	EGM	Management	To create, offer, issue and allot such number of Equity Shares, in accordance with applicable law, in one or more tranches, whether Rupee denominated or denominated in one or more foreign currencies, in the course of domestic and / or international offering(s) in one or more foreign markets, in terms of the applicable regulations and as permitted under the applicable laws, in such manner in consultation with the lead managers / book running lead manager(s) and/or other advisor(s) or otherwise, for an aggregate amount not exceeding Rs. 10,000 crore or an equivalent amount thereof (inclusive of such premium as may be fixed on such Equity Shares) at such price or prices as may be permissible under applicable law by way of one or more permitted means, through one or more qualified institutions placement of Equity Shares (QIP).	FOR	FOR	Swiggy s cash reserve position of ~Rs. 70.0 bn (as on 30 September 2025) is comfortable - a consequence of the IPO - where Rs. 45.0 bn of fresh capital was raised, the profitability of the food delivery business and expected cash from the Rapido investment ~ Rs. 24.0 bn. We understand that the proposed equity raise is being undertaken as strategic necessity driven by competition and the high capital requirements of the Quick Commerce (Instamart) business. The raise will also allow the company to be on a level playing field with competitors and strengthen its balance sheet. At the current market price of Rs. 404.5 (as on 25 November 2025), the company will need to issue ~247.2 mn shares, for the proposed equity issuance, resulting in a dilution of ~9.0% on the expanded capital base, given the recent IPO. The company has also stated that additional and other relevant disclosures regarding deployment timelines and object-wise allocation will be comprehensively provided to prospective investors in the Preliminary Placement Document (PPD) and Placement Document (PD) at the time of the actual QIP launch, as expressly mandated by the regulations. The resolution is compliant under law. Hence, we support the issue since the company will require funds to sustain and grow in the current competitive growth phase of the quick commerce segment. We note that his remuneration structure includes special ex-gratia at Rs. 1.65 mn per month, at the discretion of the management and Rajat Agrawal, Chairperson and MD (CMD). Given that he is Executive Director and CFO, we believe his remuneration should be paid out at the discretion of the Nomination and Remuneration Committee and not the CMD. Further, the basis for determining special ex-gratia in the past is unclear. We note that the auditors have issued a qualified opinion on the company s FY25 financial statements because of the effects of an FY24 matter on the comparability of current period figures. The audit qualifications relate to the company not having accounted for the employee benefit expenses related to gain on sale of certain treasury shares of the Company held by Gravita Employee Welfare Trust pursuant to the Gravita Stock Appreciation Rights Scheme, 2017, terminated during the year. Given this, as CFO, he is accountable for these lapses. Basis the above reasons, we do not support the resolution.	G	No

FOR	AGAINST	At the 2025 AGM, the company had sought shareholder approval to undertake inter corporate transactions upto Rs. 80.0 bn over and above the statutory limits. Q3	31-Dec-25	Biocon Limited	EGM	Management	To create, offer, issue, allot and deliver on a preferential basis, in one or more tranches up to 17,12,79,553 Equity Shares of the Company at the issue price of Rs. 405.78 per Equity Share including premium of Rs. 400.78 which price being not less than the floor price determined in accordance with Chapter V of the SEBI ICDR Regulations or such higher price determined on such terms and conditions as may be decided and deemed appropriate by the Board at the time of issue or allotment in accordance with the provisions of SEBI ICDR Regulations and / or other applicable laws in this respect to each of the following entities (the Proposed Allottees), for consideration other than cash (i.e. swap of securities of Biocon Biologics Limited (BBL)) to the Proposed Allottees, towards discharge/payment of the part/full consideration payable for the acquisition of the securities held by such allottees in BBL (collectively the Sale Shares), an unlisted material subsidiary of the Company.	FOR	FOR	The company had entered into an amended and restated shareholders agreement with Tata Capital Growth Fund II, Serum Institute Life Sciences Private Limited, Mylan Inc and others where under the agreement, if the investors are not given an exit through an Initial Public Offer (IPO) of BBL by a specified agreed date, the agreement envisages the use of commercially reasonable endeavours by the Promoter i.e., the Company, to provide the investors an opportunity for a complete exit for a consideration which can be paid by the Company at its discretion (i) in cash, (ii) through an issuance of shares listed on a recognised stock exchange in India (Swap), or a combination of both. Therefore the company has announced the following transaction to facilitate a unified structure. Biocon (BIOS IN) announced the full integration of Biocon Biologics Limited (BBL) with Biocon Limited (BL) and making BBL a wholly owned subsidiary of Biocon Limited through the acquisition of minority stakes. The proposed transaction involves BL acquiring the remaining 23.3% stake in BBL from minority investors valuing Biocon Biologics Limited at US$ 5.5 bn for around ~5.0 EV/sales (higher than generic companies given complex and high margin nature of the business). Viatris, holding the largest minority block, receives 91.96 mn BL shares (for 149 mn shares in BBL) valued at Rs 37.32 bn, based on the 61.70:100 swap ratio, plus US$400 mn in cash for its remaining stake. Serum Institute, Tata, and True North are allotted shared based on 70.28:100 swap ratio. Difference in swap ratio of Viatris and other shareholder is due to cash consideration for Viatris as opposed to 100% equity swap for others. BL will issue 171.3 mn new shares at a SEBI-mandated floor price of Rs 405.78, resulting in public shareholding in BL reducing from 45.55% to 37.17%, while BL promoters move from 54.45% to 44.44%. FOR	FOR	Biocon Limited seeks shareholder approval to raise funds of up to ~Rs. 45.0 bn through issuance of equity shares and/or equity-linked securities through permitted routes. The proposed fund raise is linked to the acquisition of the remaining minority shareholding in its biosimilars subsidiary, Biocon Biologics Limited (BBL), and is intended to meet/refinance obligations arising from the transaction structure, including the cash consideration payable to Mylan Inc. and repayment of interim borrowings. The issuance under this resolution, together with the preferential allotment under third resolution, will result in an overall dilution of ~17.2% on the expanded capital base. Viatris, holding the largest minority block, receives 91.96 mn BL shares (for 149 mn shares in BBL) valued at Rs 37.32 bn, based on the 61.70:100 swap ratio, plus US$400 mn in cash for its remaining stake. Serum Institute, Tata, and True North are allotted shared based on 70.28:100 swap ratio. Q3	31-Dec-25	Biocon Limited	EGM	Management	To grant of Special Rights to Investors.	FOR	FOR	Biocon Biologics Limited (BBL) houses the biosimilars business of Biocon Limited and is a 75.1% subsidiary. The balance ~23.3% is held by Mylan, Serum Institute, Tata Capital and True North, who have contractual exit rights under the shareholders agreement if an IPO of BBL is not completed. Following a review, the board concluded that an IPO of BBL is not viable currently and approved full integration of BBL with Biocon, triggering the exit and execution of Share Swap and Purchase Agreements (SSPAs) with the minority investors. Biocon (BIOS IN) announced the full integration of Biocon Biologics Limited (BBL) with Biocon Limited (BL) and making BBL a wholly owned subsidiary of Biocon Limited through the acquisition of minority stakes. The proposed transaction involves BL acquiring the remaining 23.3% stake in BBL from minority investors valuing Biocon Biologics Limited at US$ 5.5 bn for around ~5.0 EV/sales (higher than generic companies given complex and high margin nature of the business). Q3	31-Dec-25	Biocon Limited	EGM	Management	Material related party transactions between Mylan Inc. and the Company.	FOR	FOR	Biocon Limited proposes to acquire the minority shareholding in its biosimilars subsidiary, BBL, as part of its decision to fully integrate the biosimilars business and make BBL a wholly owned subsidiary. Of the balance shareholding, ~23.3% is held by Mylan, Serum Institute, Tata Capital and True North, with Mylan being the only shareholder receiving a portion of the consideration in cash, while the consideration to Serum Institute, Tata Capital and True North is proposed to be discharged entirely through equity of Biocon Ltd. The transaction is undertaken pursuant to the shareholders agreement, which provides shareholders with exit rights if an IPO of BBL is not completed within the agreed timeline. Following a strategic review, the board approved full integration of BBL with Biocon instead of an IPO, thereby triggering the exit. Under the agreed structure, Mylan s consideration is proposed to be settled through a combination of cash and equity. Through sixth resolution, Biocon seeks shareholder approval for the related party transaction involving payment of cash consideration of USD 400 mn (~Rs. 36.0 bn) to Mylan for acquisition of its stake in BBL. The cash payment forms part of the overall consideration for the minority acquisition and explains the lower swap ratio and per-share valuation applicable to Mylan relative to other minority shareholders. The acquisition will result in BBL becoming a wholly owned subsidiary and will simplify the group structure. Difference in swap ratio of Viatris and other shareholder is due to cash consideration for Viatris as opposed to 100% equity swap for others. We support the resolution.	N/A	Yes
Q4	01-Jan-26	Emmvee Photovoltaic Power Ltd	PB	Management	Ratification of Employees Stock Option Scheme 2025 (ESOS 2025).	FOR	AGAINST	Based on disclosures, it is unclear if the stock options will be granted at market price or at a discount to market price. Upto 3,500,000 stock options can be granted under ESOS 2025. The company has stated in the notice that the Nomination and Remuneration Committee (NRC) may, at its own discretion, determine performance parameters for vesting. Q4	03-Jan-26	C.E. Info systems Ltd	PB	Management	Modification of existing Employee Stock Option Plan, 2008 of C.E. Info Systems Limited.	FOR	FOR	At September 2022 AGM, the company had sought approval to ratify the ESOP 2008 scheme. Now, the company seeks shareholder approval to amend certain provisions of the pre-IPO ESOP 2008 plan. The change relates to Clause 3(d), which governs treatment of options in cases of termination with cause or employee abandonment. While the existing clause provided for forfeiture of all unexercised and vested grants, the proposed revision clarifies that shares already exercised will be governed by Clause 4, related to transferability, lock-in restrictions, and the Company s rights relating to ESOP shares after they are allotted. The discretion of the board to waive the forfeiture of unexercised option has also been removed. We support the resolution as the amendments simply provide for the scheme to be modified to bring greater clarity and ensure alignment with the SEBI Regulations.	N/A	NO

The company s debt programmes are rated ICRA AA/Stable/ICRA A1+ and IND AA/Stable/IND A1+, indicating a high degree of safety regarding timely servicing of financial obligations. The overall dilution due to preferential allotment of equity shares and warrants issue will be ~3.2% on the expanded capital base. We support the resolution.	N/A	NO
Q4	03-Jan-26	JSW Energy Limited	EGM	Management	To create, issue, offer and allot, from time to time in one or more tranches, 4,76,19,047 warrants (the Warrants), each carrying a right exercisable by the warrant holder to subscribe to 1 (One) equity share per Warrant, for cash consideration, at a price of Rs. 525 (including premium of Rs. 515) per Warrant (the Warrant Issue Price), by way of a preferential issuance and allotment to JTPM Metal Traders Limited, a member of the Promoter Group (as defined under the ICDR) of the Company (Warrants Allottee).	FOR	AGAINST	The company proposes to raise Rs. 30.0 bn by way of an equity issuance of Rs. 5.0 bn and a warrants issue of Rs. 25.0 bn. The issue price of Rs. 525.0 represents a premium of approximately 8.1% to the current market price. JSW Energy Limited currently has an installed capacity of 13.2 GW and an under construction capacity of 12.5 GW for power generation. The company has a target of achieving 30.0 GW of generation capacity and 40 GWh energy storage capacity by 2030 The company s consolidated debt stood at Rs. 681.4 bn as of September 2025, with a debt equity ratio of 2.4x. The overall dilution due to preferential allotment of equity shares and warrants will be approximately 3.2% on the expanded capital base. While we understand the company s need for funds given its capex plans, the need to infuse funds through warrants, as against equity, is unclear. We do not support the issue of warrants to promoters, as it allows them to benefit from stock price movements for 18 months. Further, if the promoters decide not to subscribe to the remaining 75%, it could have material implications for the company s debt repayment or capex plans. Promoters should have participated through a preferential issue of equity, where funds are brought in upfront rather than through the warrants route. In this case, the majority of the funds, more than 80% (Rs. 25.0 bn), are proposed to be raised through warrants rather than equity. We do not support the resolution.	G	NO
Q4	03-Jan-26	JSW Energy Limited	EGM	Management	Issue of Equity Shares, etc for an aggregate amount not exceeding Rs. 1,00,00,00,00,000.	FOR	FOR	JSW Energy Limited seeks shareholder approval for an enabling resolution to issue equity or equity-linked securities aggregating up to Rs. 100.0 bn. The approval will provide the company flexibility to raise funds over the next one year to support its capital-intensive growth plans, including expansion of generation capacity to 30.0 GW and energy storage capacity to 40 GWh by 2030. A similar enabling approval granted at the July 2025 AGM is valid only until 10 July 2026, and the company is therefore seeking a fresh authorisation, superseding the earlier one, to extend the validity. The overall dilution, including the preferential allotments under resolutions #1 and #2, is estimated at around 13.1% on the expanded capital base. The resolution will allow the company to raise funds as and when the need arises. We support the resolution.	N/A	NO

FOR	FOR	Up to 7,291,000 stock options may be granted under ESOP 2021, of which 2,961,948 options have been granted by the company prior to its IPO. Q4	09-Jan-26	Nippon Life India Asset Management Ltd	PB	Management	Approval for amendment in Reliance Nippon Life Asset Management Limited - Employee Stock Option Plan 2019.	FOR	FOR	The company seeks shareholder approval to amend the Employee Stock Option Plan 2019, originally approved in May 2019, primarily to extend the exercise period of options from seven years to nine years from the date of grant and to align the scheme with the SEBI (Share Based Employee Benefits and Sweat Equity) Regulations, 2021. Of the 24.1 mn options granted under the plan, 13.4 mn options are vested but unexercised and are at risk of lapsing upon expiry of the current exercise period in August 2026. The proposed extension provides employees with a longer window to exercise vested options, enhances flexibility, and supports retention, without introducing a new ESOP scheme. The company also proposes to align the plan with SEBI s Share Based Employee Benefits and Sweat Equity Regulations, 2021 (SBEB & SE Regulations), with respect to provisions relating to retirement, death and permanent incapacity and carry out the necessary changes. Further, the plan s name is proposed to be updated to reflect the current name of the company. We raise concern that the extension of the exercise period to nine years deviates from standard market practice and may increase the fair value of options, with a corresponding adverse impact on reported profits. Further, the company had in April 2019 granted 9.0 mnoptions to the then Executive Director and CEO, aggregating to 2% of the paid-up share capital. Notwithstanding, the proposed amendments are administrative in nature and ensure alignment with SEBI Regulations. Further, the exercise price will be at a maximum 20% discount to market price, ensuring alignment of interests of employees with investors. Hence, we support the resolution.	N/A	NO

Q4	14-Jan-26	Shriram Finance Limited	EGM	Management	The payment of a one-time, non-recurring and fixed amount of USD 200,000,000 by MUFG Bank Ltd (Investor) to Shriram Ownership Trust, Promoter of the Company for the non-compete and non-solicit obligations undertaken by Shriram Ownership Trust for itself and on behalf of its affiliates for the benefit of the Company, with a view to safeguard the Company's goodwill, protecting the interests of all its shareholders and ring-fencing and enhancing the value of the Company's lending and credit business.	FOR	FOR	The non-compete payment aggregating about INR18 bn will be paid by MUFG directly to the Shriram group promoter entity (Shriram Ownership trust and its affiliates). Shriram Ownership Trust is one of the promoters of Shriram Finance Limited and also holds the controlling shareholding in another promoter entity i.e., Shriram Capital Private Limited. From the standpoint of Shriram Finance Limited and all its shareholders, it is inherently in the interest of Shriram Finance Limited and its shareholders that its promoter group does not, directly or indirectly set up, promote, or support any business which competes with Shriram Finance Limited. It is important to note that the non-compete obligation covers not only Shriram Ownership Trust but also all the affiliates of Shriram Ownership Trust irrespective of their shareholding in Shriram Finance Ltd. More important, the non-compete extends to all the lending and credit businesses and not only the current lines of credit business being carried out by the Company. Shriram Ownership Trust and its affiliates are prevented from carrying on any business of providing retail and wholesale financing, credit and related financial services. Further the non-compete also extends to fintech businesses like digital lending, digital banking, neo banking, virtual banking and any similar lending and credit carried out through use of software, mobile / web platform, API or other technology. The limited carve out is for Shriram Credit Company Limited and its subsidiaries from continuing to carry on its existing business of providing loans against securities. Shriram Ownership Trust has agreed not to use or license the Shriram' brand in connection with any competing business as aforesaid. It is noted that the existing brand licence granted to the Company is not on an exclusive basis for the NBFC business. Accordingly, this commitment further safeguards the Company's use of the Shriram brand in relation to its lending and credit activities and fintech business. The non-compete and non-solicit undertakings in favour of the Investor, therefore help ring-fence the value, goodwill and competitive position of Shriram Finance Limited and protect the interests of all shareholders by restricting the promoter group from leveraging its unique position and know-how to establish or support competing financial services platforms. Moreover, the noncompete consideration is paid entirely without any financial impact on the Company and operates as a value-protective mechanism that benefits all shareholders equally by safeguarding the Company s franchise. We believe the non-compete agreement doesn't have any financial implication for Shriram Finance and safeguards interests of the minority shareholders of	N/A	YES

Q4	18-Jan-26	Billionbrains Garage Ventures Ltd	PB	Management	Approval for amendment and ratification of Billionbrains Garage Ventures Limited Employee Stock Option Scheme 2024 as per SEBI (Share Based Employee Benefits and Sweat Equity) Regulations, 2021.	FOR	AGAINST	The company seeks approval for Billionbrains Garage Ventures Limited Employee Stock Option Scheme 2024 (ESOP Scheme 2024) under which up to 331.5 mn options can be granted. The company seeks ratification of the scheme and amendment to implement the scheme through the Trust route by secondary acquisition of shares. The vesting of options is time based and there is no clarity on the exercise price, since it will be at the discretion of the Nomination and Remuneration Committee (NRC). Per management the options will not be priced below FV, but there is no clarity on the pricing / discount to market price. Further, we highlight that the exercise period for the option (granted pre-listing) can be upto 20 years from the date of vesting and upto ten years for ESOPs granted post listing from the date of vesting. Having such long exercise period can materially increase the cost of the option. It is unusual for companies to have such long exercise period for the ESOP schemes. While the quantum of the benefit for any single employee has been capped at 1% of the issued share capital, lack of clarity on the pricing of the options and significantly longer exercise period makes us vote AGAINST the resolution. Q4	18-Jan-26	Billionbrains Garage Ventures Ltd	PB	Management	Alteration of Articles of Association of the Company.	FOR	AGAINST	The company proposes to insert Article 156(4) which entitles a large investor Peak XV Partners Investments VI-1 to nominate a non-executive director if it holds the most number of equity shares and at least 10% of the outstanding fully paid-up equity shares. We support this right, as the board nomination right for the investor ceases when their shareholding drops below 10%. However, the Article 156(4) also allows each of the four founders, as long as they are classified as promoters, to nominate one director on the Board. Presently, the company has four individuals (Lalit Keshre, Harsh Jain, Ishan Bansal and Neeraj Singh) who are classified as promoters. Currently, Mr. Lalit Keshre holds 9.06%, Mr. Harsh Jain holds 6.67%, Mr. Ishan Bansal holds 4.50%, and Mr. Neeraj Singh holds 6.21% of the Company s equity shareholding. Currently, individual promoters hold less than 10% each in the company. Further, if the founders were to dilute or sell their shareholding in the future but continue to be classified as Promoters, they would still be entitled to exercise the nomination rights. We do not support board nomination rights without a minimum shareholding threshold. Hence we vote AGAINST.	G	NO

FOR	FOR	LTA is a 75% subsidiary with 25% being held by a local partner in Saudi Arabia. The company has various subsidiaries which are formed in accordance with the requirement of local laws for the purpose of bidding and execution of Engineering, Procurement and Construction (EPC) contracts. The value of these PCGs is equivalent to the full value of the contract. Such PCGs are to be issued upfront and are to be valid till the completion of all obligations under the contract. We believe the support extended to these international subsidiaries will enable them to bid and execute contracts in foreign countries. The transactions proposed are largely operational in nature, in the ordinary course of business and at arm s length. FOR	AGAINST	The company proposes to amend the LTTS ESOP Scheme 2016 to continue granting ESOPs to employees beyond the scheme s original termination date and bring it in compliance with SEBI SBEB & SE Regulations. Further, the company proposes to formulate an Employee Stock Option Sub-Plan 2025 (Sub-Plan 2025) under the scheme with a specified termination date which would comply with US Federal Laws, California Corporate Securities Law of 1968 and other applicable laws. As company states, they would be giving the ESOP on the face value. It meets the regulatory requirement and we have no concern about it. Q4	19-Jan-26	Narayana Hrudayalaya Limited	TCM (Equity S	Management	Scheme of arrangement proposed to be made of Meridian Medical Research and Hospital Ltd. (Applicant Company No. 1/ Transferor Company) and Narayana Hrudayalaya Limited (Applicant Company No. 2/ Transferee Company) and their respective shareholders and creditors.	FOR	FOR	Meridian Medical Research & Hospital Limited (MMRHL) operates two multi-specialty hospitals in Howrah, West Bengal, and is a 99.1% subsidiary of Narayana Hrudayalaya Limited (NHL). The scheme proposes the amalgamation of MMRHL into NHL, pursuant to which NHL s shareholding in MMRHL will stand cancelled and equity shares will be issued to the other shareholders of MMRHL. Under the scheme, one equity share of NHL will be issued for every two equity shares held in MMRHL. This issuance of 127,177 equity shares will result in a marginal dilution of ~0.06% to NHL s existing shareholders. The valuation and resultant exchange ratio appear reasonable. Q4	19-Jan-26	JSW Infrastructure Ltd	PB	Management	Approval for undertaking Material Related Party Transaction between JSW Port Logistics Private Limited, a wholly owned subsidiary of JSW Infrastructure Limited and JSW Shipping and Logistics Private Limited, a promoter group company of JSW Infrastructure Limited for an enterprise value of Rs. 1,212 crore (enterprise value of the Target Entities), subject to working capital adjustment on the closing date of the Proposed Transaction, as specified in the Share Purchase Agreement dated 8th December, 2025 entered into amongst the Buyer, Seller and the Target Entities (the SPA) and subject to the said Proposed Transaction being carried out at arms length.	FOR	FOR	JSW Port Logistics Private Limited (JSWPLPL), wholly owned subsidiary of JSW Infrastructure Limited (JSWIL), is engaged in the business of providing warehousing and logistic services. JSW Shipping & Logistics Private Limited (JSWSLPL) provides shipping and logistic services primarily to JSW Group entities. The entire share capital of JSWSLPL is held by Sajjan Jindal Family Trust (SJFT) along with its nominees. The proposed transaction involves the acquisition of 100% equity stake in three rail-logistics entities, viz JSW Rail Infra Logistics Limited (JSWRIL), JSW Minerals Rails Logistics Limited (JSWMRL) and JSW (South) Rail Logistics Limited (JSWSRL), wholly owned subsidiaries of JSWSLPL, by JSWPLPL, for an enterprise value of Rs. 12.1 bn subject to working capital adjustments. As company states, For regulated rail logistics platform, value is anchored in long-term contracted cash flow, which means DCF would be more accurate. After considering stage of operation, anchor contracts and regulatory requirements, an independent valuer has suggested the DCF process of valuation. Also, the company was focused on core Port-led operations and port-centric logistics. It announced its foray into logistics with the acquisition of Navkar Corporation Limited in October 2024. Therefore, the rail rake opportunity which involved regulatory, licensing and execution uncertainties was incubated outside the Company, thereby ring-fencing early-stage regulatory and execution risks from minority shareholders perspective during a phase of policy flux. Further, when the regulatory framework was at it s place, the Board of Directors of the Company determined that consolidation of these Target Entities with the Company is in the best long-term interest of members of the Company. Earlier, these contracts involved regulatory and execution uncertainty and was operated separately, consequently, the Company was not positioned to immediately contract for such services on a greenfield basis under the prevailing scheme conditions. Post integration, the strategy is to scale third-party volumes leveraging port connectivity (Paradip, Goa) and ICD/CFS ecosystem. We support the resolution.	N/A	NO

Q4	22-Jan-26	Granules India Limited	EGM	Management	To create, issue, offer and allot up to 2,50,00,000 (fully convertible warrants (warrants), each convertible into, or exchangeable in one or more tranches, at an option of proposed allottees, within a maximum period of 18 months from the date of allotment of warrants into equivalent number of fully paid up equity shares of the Company of face value of Rs. 1/- each at a price of Rs. 585/- each payable in cash (warrant issue price), aggregating to Rs. 1,462.50 Crores to proposed allottees on preferential issue basis.	FOR	AGAINST	The company proposes to raise Rs. 17.63 bn, resulting in an overall dilution of ~11.0% on the expanded equity base. Of the total fund raise, Rs. 14.6 bn is proposed to be raised through the issuance of warrants, largely to promoters. The proceeds are proposed to be utilised towards funding of business operations and general corporate purposes. The warrants are priced as the equity shares of the company and it does not have any premium , considering the 18 month period provided to exercise the warrants. In the case of a warrants issue, 25% of the issue price is paid upfront, remaining 75% is payable upon conversion. If promoters decide not to subscribe to the remaining 75%, it could have material implications for the company s funding plans. The warrants are being issued almost entirely to promoters, while equity is being issued only to non-promoters, resulting in an increase in promoter shareholding to 43.7% from 38.8%. Promoters would have taken the equity-infusion route instead of Warrants. Hence we do not support the resolution.	G	NO

FOR	FOR	In May 2025, shareholders had approved acquisition of APPH from CRPSH, which was controlled by the Adani family. The acquisition was completed in December 2025 and APPH is now a wholly owned subsidiary of APSEZ. As part of the acquisition, APSEZ assumed other non-core assets and liabilities on APPH s balance sheet of ~USD 2.5 bn. The non-core items are to be settled/ realised within a few months from the acquisition of APPH (which was completed on December 23, 2025), which APSEZ will realize within a few months of the acquisition. APPH proposes to realise/ settle the non-core items through the repayment of certain receivables to APPH from APPH s debtors, which will then be applied by APPH to repay APPH s creditors, as a result of which both the payables as well as the receivables from the non-core items on APPH s balance sheet will become nil. The material non-core items aggregate USD 2.3 bn, for which approval is being sought. Additionally, APPH will also settle non-material non-core items. We support the resolution.	N/A	NO

Q4	04-Feb-26	JSW Steel Limited	PB	Management	Approval for Material Related Party Transactions in connection with the proposed joint venture arrangement between the Company, Piombino Steel Limited, JSW Kalinga Steel Limited and JSW Sambalpur Steel Limited and JFE Steel Corporation, Japan for the steel business undertaking of Bhushan Power and Steel Limited.	FOR	FOR	Presently, BPSL is held by PSL. JSWSL holds 82.65% stake in PSL and the balance 17.35% is held by JSW Shipping & Logistics Private Limited, a promoter-controlled entity. JSW Kalinga will issue equity shares to JFE for a consideration of Rs. 78.75 bn, resulting in a 25% stake on a fully diluted basis. JFE will also acquire convertible debentures of JSW Kalinga from PSL for a consideration of Rs. 78.75 bn, resulting in an additional 25% stake in JSW Kalinga. While there is no valuation report, we note that the transaction implies an equity value of Rs. 315.0 bn to JSW Kalinga, which is higher than the equity value determined by the independent valuer for the slump sale of BPSL s business undertaking. To fund the acquisition of BPSL s business undertaking, JSW Kalinga and JSW Sambalpur will raise debt which will require a joint letter of comfort from PSL/JSWSL and JFE. Q4	18-Feb-26	Aptus Value Housing Finance India Ltd	PB	Management	To approve amendments to the Articles of Association of the Company.	FOR	AGAINST	The proposed amendments to the Articles seek to update the definition of promoters to reflect the company s current promoters, M. Anandan and Ms. Padma Anandan. The company also proposes to delete the nomination rights of Westbridge its erstwhile investor promoter while retaining the nomination rights for its promoters, M. Anandan and Ms. Padma Anandan. In addition, the amendments introduce affirmative voting rights for the promoters on key matters and strategic decisions. The nomination rights granted to M. Anandan and Ms. Padma Anandan allow them to collectively nominate a majority of the board for as long as they are classified as promoters, irrespective of their shareholding. Therefore, even if the promoters shareholding reduces whether through sale or dilution they would continue to hold board nomination rights. The Company is seeking approval for Nomination Rights in favour of the Promoters without linking it to any shareholding thresholds. Simply put, there is no lower shareholding cap up to which the concerned Promoters will be having such Nomination Rights. Further, the proposed amendments modify the board quorum requirements to mandate the presence of at least one promoter nominated director throughout the board meeting. Promoters are proposed to be granted such affirmative right, regardless of any lower shareholding threshold. Given the above concerns, we do not support the resolution.	G	NO

FOR	FOR	The Company submits that the proposed QIP issuance is backed by sound commercial rationale, and identified objects, and represents an appropriate capital-raising mechanism in comparison to alternative routes. The objects specified by the Company are specific and directly link to its operational and strategic requirements, namely: (i) repayment of existing debt obligations; and (ii) augmentation of growth capital and on lending for the Company's financing activities. At the current market price, the resulting dilution could be high. However, we take comfort from the fact that borrowings of NBFCs are regulated by capital adequacy requirements of the Reserve Bank and despite such high dilution, promoters will hold more than 51% in the company. The company has stated that the fund raise shall be utilised to optimise its liability profile and provide growth capital to expand the assets under management. We favour the resolution	N/A	NO

Q4	27-Feb-26	Coforge Ltd	PB	Management	Approval for Grant of Special Rights and Covenants Pursuant to the SSPA.	FOR	FOR	Coforge will acquire 100% equity of Encora and the existing shareholders of Encora shall be granted Coforge s equity shares, through a share-swap arrangement. The current shareholders of Encora will hold around 21% equity in Coforge upon completion of the transaction. Accordingly, a SSPA was executed between the company and the shareholders of Encora, which provided Advent International (the majority shareholder) through its two holding companies, the special right to nominate two directors on the board, including the right to appoint a nominee director to each of the Audit Committee and the Nomination and Remuneration Committee, linked to a minimum shareholding threshold of 5%, along with other provisions intended to protect Coforge s interest. While the transaction was approved by shareholders, the resolution to grant special rights and consequent amendments to the Articles of Association (AoA) was defeated. Thus, the SSPA was amended to record the revised terms, raising the fall-away threshold for Encora s board nomination rights to a minimum 10% shareholding from the earlier 5% and removing the special right to appoint Encora Directors to Coforge s board committees. Further, no change in AoA of the company are being made to reflect any special rights. The other amendments which continue to protect Coforge s interest, such as lock-in restrictions on 50% of Encora s shareholding until 30 June 2027, a prohibition on acquiring additional shares that would trigger an open-offer obligation and restrictions on transferring their shares to competitors or strategic investors, remain unchanged from the previous proposal. We recognise in the current resolution board nomination rights are linked to a minimum shareholding threshold of 10% and the other proposed amendments protect Coforge s interest. Therefore, we support the resolution.	N/A	NO

Q4	28-Feb-26	AU Small Finance Bank Limited	PB	Management	To approve the amendments in AU Employees Stock Option Scheme 2023 (AU ESOS 2023).	FOR	FOR	By way of the 2023 Postal Ballot, AU SFB received shareholder approval for the AU Employees Stock Option Scheme 2023 (AU ESOP/ESOS 2023) to grant ESOPs/ESOS to employees with an initial pool of 20.0 mn options. As of 31 December 2025, 15.8 mn options have already been granted and 4.2 mn options are available for future grants under the scheme. Further, only 0.5 mn options remain available under the other ESOP schemes of the bank. To meet the future ESOP requirements, the bank proposes to increase the pool size of AU ESOS 2023 by 30.0 mn stock options, thereby increasing the total options pool from 20.0 mn to 50.0 mn stock options. The bank also proposes to alter clauses involving providing nomination for employees with permanent disability and accelerated vesting in case of death of an employee. The exercise price is linked to market price, as determined by the NRC, and will not be less than the face value of the shares. The bank has also specified that in the past, NRC has fixed exercise price in line with 26 weeks volume weighted market price. The bank via a disclosure on the stock exchange - has clarified that the exercise price under the AU Employees Stock Option Scheme 2023 will be the average of weekly high and low of Volume Weighted Average Price (VWAP) of equity shares during the last twenty-six weeks immediately prior to date of the meeting of NRC, on the Stock Exchange having higher trading volumes, without any exceptions. The bank has also clarified that for any change in calculation of grant price for AU ESOS 2023, if proposed in future, they will seek explicit approval from shareholders. Given this clarity, we support this amendment to AU ESOP 2023.	N/A	NO

Q4	05-Mar-26	Linde India Limited	EGM	Management	Approval of material related party transaction(s) with Praxair India Private Limited for an aggregate value of INR 4,177 million for the financial year 2025-26.	FOR	AGAINST	Linde India has undertaken transactions aggregating Rs. 3.3 bn with Praxair for the nine months ended 31 December 2025. The value of these transactions has crossed the materiality thresholds. SAT dismissed the company s appeal over the SEBI order, and the Supreme Court, having admitted the company s appeal has not granted a stay. Therefore, the company is seeking shareholder approval for the related party transactions for FY26. The transactions are operational in nature. The company explained how arm s length pricing was applied to sales but has not addressed purchases. The board must explain how it assessed purchase pricing. The need for these related party transactions has arisen for two reasons a business divide created by the parent between Praxair and Linde India, and the failure to merge these two entities in India, notwithstanding the merger of Linde plc and Praxair Inc globally. At the 2021 AGM, the shareholders rejected the proposal to undertake related party transactions with Praxair: investors concerns with respect to the lack of merger and the forced division of business between the two companies remain unresolved. We raise concern that instead of addressing investors concerns, the board took a nuanced legal interpretation of the regulations and decided to continue with these transactions without shareholder approval. SEBI having passed significant strictures against the company for its practices in its July 2024 order, and its appeals not materializing before higher jurisdictions, has resulted in the company needing to seek shareholder approval. Linde India is yet to seek shareholder approval for related party transactions undertaken between 1 January 2021 and 31 March 2025. SEBI also directed the company to value the business foregone and received due to the diversion of business to Praxair due to the parent s division. The company has yet to publish this estimate or explain how the board will address the lost opportunity. We also note that under its related party transaction policy, the material modification limit is upto 25% of the approved limit, which is considered relatively high. We therefore do not support the resolution.	G	YES

The InvIT debt is rated at CARE AAA/Stable for its consolidated borrowings upto Rs. 79.0 bn (enhanced from Rs. 29.6 bn), which denotes highest degree of safety regarding timely servicing of financial obligations. We note that the InvIT has announced the acquisition of four operational HAM projects from KNR Construction Limited and three operational HAM projects from G R Infraprojects Limited (refer resolution #1), which could be funded through debt. Further, secured debt has easier repayment terms, less restrictive covenants and marginally lower interest rates. We support the resolution.	N/A	NO

Q4	10-Mar-26	Aster DM Healthcare Limited	TCM (Equity S	Management	Scheme of Amalgamation amongst Quality Care India Limited (QCIL) and Aster DM Healthcare Limited (Aster) and their Respective Shareholders and Creditors (Scheme).	FOR	FOR	Through the proposed scheme of arrangement, QCIL will merge into Aster DM Healthcare Limited, creating a combined entity that shall operate 38 hospitals with over 10,150 beds across nine states in South and Central India. The merged listed entity will be renamed Aster DM Quality Care Limited. Post-merger, Aster s promoters (Moopen Family) and QCIL s promoter (Blackstone) will hold 24.0% and 30.7%, respectively in the merged entity. The scheme also provides for granting certain special rights to the promoter groups, amendments to the articles of association, and company name change to Aster DM Quality Care Limited. Further, Blackstone will pay incentives to select QCIL employees without any financial impact on QCIL, Aster, or the merged entity. We do not support the special rights extended to Aster Promoters and Blackstone. The scheme grants board and committee nomination and quorum rights, subject to minimum shareholding thresholds. Blackstone retains special rights until its shareholding in the merged entity falls below 10% (with a right to nominate one director till its shareholding is 7.5%), while Aster Promoters rights terminate below 5%. The thresholds here are lower. We do not support committee nomination rights, as committee composition is the board s prerogative. Q4	25-Mar-26	Schneider Electric Infrastructure Limited	PB	Management	To approve, participate in and implement the Worldwide Employee Share Ownership Plan 2026 (2026 WESOP) of the Ultimate Holding Company, Schneider Electric SE, France (a listed company on the French Stock Exchange, Euronext Paris), the salient features of which shall form part of 2026 WESOP Information Notice and Tax Note for India and other documents.	FOR	FOR	Schneider Electric, at the group level, has an Employee Stock Option Scheme called the Worldwide Employee Share Ownership Plan (WESOP), whereby employees of group companies have the right and option to subscribe (indirectly) to shares of Schneider Electric SE (SE France), the ultimate holding company. The employee s contribution to the plan is supplemented by a matching cash contribution by the company. Employees may invest up to 25% of their gross annual earnings under WESOP 2024. The shares are offered at a 15% discount on the share price and the employer contribution per employee is capped at EUR 1,400. The maximum discount of 15% ensures that the purchase price remains close to market price. We believe the company should provide more detailed disclosures with respect to the employee wise grant of stock options. Schneider Electric has the ability to reduce the exercise price in cases of market volatility. While we typically do not support employee schemes that allow the company to reduce the exercise price, we support the resolution as the authority to revise the price is restricted solely to situations involving market volatility. Further, we take comfort in the fact that the amount per employee is capped at EUR 1,400, which is reasonable. The scheme will help the company retain talent. We support the resolution.	N/A	NO

The transactions with SEITIB aggregated Rs. 3.1 bn and Rs. 4.2 bn for FY25 and 9M FY26, respectively. The company seeks approval for related party transactions aggregating Rs. 5.2 bn for FY27, of which Rs. 4.3 bn pertains to borrowings by the company from SEITIB, comprising an outstanding loan of Rs. 2.55 bn maturing in June 2028 and Rs. 1.75 bn drawn under the cash pooling arrangement for working capital requirements. The company s borrowings primarily comprise inter corporate deposits from SEITIB, the outstanding amount of which stood at Rs. 2.4 bn on 31 March 2025, carrying a floating interest rate in the range of 6.68% to 7.09% for FY25. However, there is no clarity on SEITIB s profile or the rationale for availing financial assistance from SEITIB. We also note that, as per the meeting notice, FY25 transactions aggregated Rs. 3.1 bn, while the annual report discloses only Rs. 0.3 bn; shareholders should engage with the company to understand this discrepancy. We recognize that the transactions proposed for FY27 are capped with individual limits, and the overall limits sought for FY27 (Rs. 5.2 bn) are lower than the approved FY26 limits (Rs. 7.0 bn). Further, the interest on financial support availed from SEITIB is linked to treasury bill rates. We support the resolution	N/A	NO

Q4	31-Mar-26	Anand Rathi Share & Stock Brokers Ltd	PB	Management	Approval of Material Related Party Transactions with Anand Rathi Financial Services Limited (ARFSL/ Holding Company) for the Financial Year 2026-27, but shall not exceed Rs. 69,681.40 lakhs in aggregate provided that such contract(s)/ arrangement(s)/ transaction(s) will be carried out at an arm's length basis and in the ordinary course of business of the Company.	FOR	FOR	The Company has requested shareholder approval for related party transactions with Anand Rathi Financial Services Limited (ARFSL) for an aggregate amount of INR6.97bn for FY27. ARFSL is a promoter of the company, holding 69.9% of the paid-up share capital. The proposed transactions include loans, advances and deposits; brokerage and related services; rent payments and receipts; business support and other charges; interest payments (including on cash margins); brand charges; insurance premiums; and purchase of debentures/bonds. Most of these transactions appear to be operational in nature and should be considered as part of routine course of the business. With regard to the proposed investment in debentures/bonds of ARFSL, per management, this limit has been prudently assessed to support the proposed expansion of the Company s business in fixed income and structured product offerings. The Company provides services w.r.t. distribution of financial products such as schemes of mutual funds, alternative investment funds, structured products, corporate fixed deposits, non-convertible debentures and bonds, and distribution of portfolio management services. The Company sells Bonds and Debentures of many third-party issuers along with selling the debentures of the Group Companies. Accordingly, trading in Debentures / Bonds forms a normal part of the Company s revenue operations. In trading of debentures / Bonds, the Company is able to generate relatively higher yield compared to other distribution products without blocking its working capital. Accordingly, the Company s capital is not being utilized to finance the promoter group on a stand alone basis. The Company (ARSSBL) purchases debentures issued by the Group companies only on receipt of confirmed demand for such debentures from its clients. As a process, the Company receives advance funds from clients/investors for purchase of debentures, and only thereafter, the Company purchases the requisite debentures from the Group Companies. And, on receipt of Debenture instrument from the group companies, it is sold to the Client on an immediate basis. Accordingly, the Company does not deploy its funds in such instruments (for a longer tenure) without a corresponding client order or mandate. The proposed RPT limit and related transactions are being placed for approval by the Board, including the Independent Directors, in full compliance with the provisions relating to material related party transactions under the Companies Act, 2013 and the SEBI LODR Regulations. Hence we support the resolution.	N/A	NO

FOR	FOR	The Company has requested shareholder approval for related party transactions with Anand Rathi Global Finance Limited (ARGFL) for an aggregate amount of INR6.80bn for FY27. Anand Rathi Global Finance Limited (ARGFL) is the NBFC arm of the group and is a registered NBFCND-SI. Anand Rathi Financial Services Limited (ARFSL), the promoter of ARSSBL, holds 91.23% of ARGFL s share capital. The proposed transactions include brokerage and related services; rent paid and received; interest payments (including on cash margins); insurance charges recovered; and redemption/sale and purchase of debentures/bonds. With regard to the proposed investment in debentures/bonds of ARGFL, per management, this limit has been prudently assessed to support the proposed expansion of the Company s business in fixed income and structured product offerings. He has been associated with the company since its inception and is also the Co-founder and Vice Chairperson of the Anand Rathi Group. He is liable to retire by rotation. Mr. Pradeep N. Gupta has over 32 years of rich experience in the financial services and Capital Market industry and has been instrumental and pivot role in developing the Company s business from inception to its present scale and brand recognition. His strategic guidance, deep domain knowledge and long term relationships have significantly contributed to the growth and positioning of ARSSBL as a respected and high performing platform in this segment. The Board, including the Independent Directors, is of the view that continuity of his leadership as Managing Director and Chairman is essential for sustaining momentum in business growth, risk management, technology investments and talent retention, particularly in a competitive and highly regulated environment. While he continues to hold the dual position of Chairman and Managing Director, the Company has in place an effective framework of Independent Directors, Board committees (including Audit Committee and NRC) and a clear delegation of authority, which together provide adequate checks and balances in line with good corporate governance practices and the requirements under the Companies Act, 2013 and the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. The proposed remuneration for Mr. Gupta represents the upper limit sought to be approved, in line with performance, market benchmarks and regulatory guidance. It is not an automatic entitlement to the maximum amount but a cap within which the actual payout will be determined by the NRC based on performance parameters and profitability of the Company. As per FY25 financials, his total remuneration stood at INR72mn, well below the proposed remuneration cap then. The Nomination and Remuneration Committee (NRC) has reviewed Mr. Gupta s remuneration in the context of his extensive experience and long standing contribution to the company. The proposed cap of remuneration structure is seen as fair, reasonable and commensurate with his role and responsibilities. Also, with respect to him holding full time positions at two companies, the Board and NRC are satisfied themselves that there is no regulatory non compliance. Since the proposed re-appointment and remuneration is legally compliant we support the resolution.	N/A	NO
