Trustee Report

We have pleasure in presenting the Annual Report of the Schemes of Kotak Mahindra Mutual Fund ('the Fund') for the year ended March 31, 2026, along with the audited financial statements for that period.

1. Scheme Performance, Future Outlook and Operations of the Schemes

Investors are requested to refer to Pages 944 to 967, for Key performance statistics of the schemes.

Outlook on the Equity & Debt Market

Debt Market Overview

FY25–26 unfolded against a backdrop of evolving global and domestic macroeconomic conditions. While global markets contended with heightened geopolitical uncertainties, trade disruptions, and intermittent inflationary pressures, the Indian economy demonstrated resilience, supported by moderating inflation, stable growth, and improving financial conditions.

During this period, Reserve Bank of India (RBI) maintained an accommodative monetary policy stance, reducing the repo rate by a cumulative 100 basis points from 6.25% to 5.25%. The easing cycle was enabled by benign inflation dynamics, with CPI inflation remaining broadly below the RBI's medium-term target of 4%, while economic activity continued to exhibit resilience. Complementing the rate cuts, the RBI implemented measures to enhance systemic liquidity, including a cumulative 100-basis-point reduction in the Cash Reserve Ratio (CRR) in phases during this period. These actions, together with sustained liquidity infusion measures, led to a marked improvement in banking system liquidity, resulting in a surplus of approximately1.27 lakh crore by the end of March 2026.

On the global front, trade and geopolitical developments remained key drivers of market sentiment. The imposition of higher tariffs by the United States disrupted global trade flows and heightened uncertainty across financial markets. Although tariff rates applicable to India were subsequently moderated, concerns around global growth and supply chain realignment persisted. Meanwhile, escalating tensions in the Middle East, contributed to heightened volatility in commodity and energy markets, driving crude oil prices above USD 100 per barrel and raising inflationary risks globally.

Domestically, structural reforms, including the implementation of GST 2.0, helped simplify the indirect tax framework and supported consumption and economic activity. However, some of the benefits of these reforms were tempered by higher imported input costs arising from elevated global commodity and energy prices.

Indian bond market experienced a mixed yet constructive year. Monetary easing and abundant liquidity conditions supported a meaningful decline in short-term yields as money market rates adjusted to the lower policy rate environment. At the same time, long-term yields remained volatile and edged higher, reflecting elevated global risk premia, geopolitical tensions, currency pressures, and continued supply of government securities. Consequently, the yield curve steepened during the year, creating opportunities across different segments of the fixed-income market.

Indian rupee came under pressure during said period, depreciating by around 9% against the US dollar amid global trade uncertainties, geopolitical tensions, and capital outflows, which contributed to higher market volatility.

Asset-class performance reflected the risk-off environment. Gold and silver emerged as the best-performing asset classes, benefiting from safe-haven demand, while debt delivered strong returns supported by policy rate cuts and abundant liquidity. Equities lagged amid heightened geopolitical risks, currency weakness, and concerns over the global growth outlook.

Against this backdrop, the combination of accommodative monetary policy, improving liquidity conditions, resilient macroeconomic fundamentals, and increased market volatility created a favourable environment for active fixed-income investing during FY25–26. While global uncertainties continued to influence long-term rates and risk sentiment, the domestic fixed-income market remained well supported, offering relatively better opportunities across both duration and credit segments.

Equity Market Overview:

FY26 turned out to be year where market's resilience was tested amidst volatility driven by global factors. The period from April 2025 to December 2025 saw the Nifty 50 Index deliver steady gains, supported by strong domestic fundamentals, moderating inflation and monetary easing and despite rise in geopolitical tensions between India and Pakistan at the start of the year and the brewing global trade war. However, January 2026 to March 2026 was marked by heightened volatility as global risk-off sentiment resurfaced due to IT sector sell-off with advent of AI firm's automation tools, geopolitical tensions in the Middle East, renewed concerns around global trade disruptions and currency volatility. Due to the large choppiness in the last quarter, Indian equities delivered negative returns for the year, with the large-cap Nifty 50 Index ending FY6 with -5% returns in INR terms and -14% in USD terms.

FY26 witnessed several important global and domestic macroeconomic developments that influenced capital markets. Trade and tariff-related uncertainties, particularly emanating from the United States, re-emerged as an overhang for global growth and capital flows at the beginning of the financial year but during the course of the year, expectations of settlement of tariff related trade deals and synchronized monetary easing initially supported risk assets. However, sentiment weakened towards the end of the year as geopolitical risks intensified and crude oil prices rose sharply following disruptions in West Asia. While it remains difficult to quantify the full impact of these developments since these are still evolving scenarios, they contributed to higher volatility in global financial markets during the latter part of the year.

On the global monetary policy front, FY26 saw continuation of the rate cut cycle as US Fed cut rates by 75 bps between September to December 2025 after a brief pause since previous cut in December 2024, adopting a data-dependent approach amid sticky core inflation and renewed commodity price pressures. In India, the Reserve Bank of India (RBI) initiated a calibrated easing cycle from February 2025 onwards and cutting the repo rate by 125 bps in CY2025 of which 100 bps cut was in FY26, supported by a benign inflation trajectory and adequate system liquidity. Towards the end of the year, the RBI balanced growth support with currency and financial stability considerations amid global volatility.

Geopolitical risks remained elevated throughout FY26. While the Russia–Ukraine conflict remained contained, escalation of tensions in the Middle East had a direct impact on energy prices, global risk sentiment and currency markets. These developments reinforced the global shift towards higher defence spending and supply-chain diversification, with implications for both fiscal priorities and corporate capital allocation globally.

Relative performance versus global markets was subdued during FY26. While the large cap Nifty 50 Index was down by 13.9% and MSCI Index was down 12.6% during the year, the MSCI Emerging Market Index and MSCI World Index were up by 26.0% and 14.6% respectively (all in US$ terms). INR depreciation by 11% during the financial year dampened the USD returns and FII participation. Domestic flows continued to play a stabilizing role even as foreign investor participation remained volatile with net outflows. Mid and small-cap indices saw sharper swings during the year with +1.9% and -5.5% respectively, reflecting valuation sensitivities and heightened risk aversion during periods of global stress.

India's macro fundamentals remained relatively strong. CPI inflation stayed largely within the RBI's tolerance band for most of the year, despite intermittent food and energy price pressures. India's CPI inflation slipped from 3.34% at start of the year which slipped to low of 0.25% in October 2025 with food inflation turning negative but ending the year at 3.4% for March 2026 on higher energy prices and rebound in food inflation from the lows. Real GDP growth for FY26 remained among the highest globally at 7.6% (projected), supported by steady urban demand, gradual recovery in rural consumption and continued public sector capital expenditure. Recognizing signs of uneven consumption growth, policymakers continued to focus on measures to support household demand as Govt announced direct and indirect tax cuts while maintaining a path of fiscal consolidation. Following up on raising of tax slabs for personal income tax in previous Union Budget resulting in INR 1 trillion of stimulus, Govt. announced GST rate cut providing stimulus of INR 480 bn for the year. The Union Budget maintained its emphasis on capital expenditure while also supporting consumption through targeted tax and policy measures.

Foreign Institutional Investors (FIIs) were net sellers of Indian equities for a large part of FY26, particularly during periods of heightened global risk aversion and currency volatility. However, as in previous years, Domestic Institutional Investors (DIIs) played a crucial counterbalancing role, supported by robust inflows through systematic investment plans (SIPs) and continued retail participation. Domestic equity ownership deepened further during the year, with the number of demat accounts continuing to rise, reflecting the structural expansion of India's equity investor base.

From a valuation perspective, after the recent correction, large-cap equities have now slipped slightly below long-term historical averages and midcap is at modest premium which is justifiable given the earnings trajectory while small-cap valuations remained elevated relative to their own history despite periods of correction. Consequently, earnings delivery and balance sheet strength remained key differentiators, especially within the broader market. Selectivity and bottom-up stock picking became increasingly important in navigating the market environment.

Kotak Mahindra Mutual Fund **("Kotak Mutual Fund")** continued to follow its disciplined investment approach with bias towards large cap investing. In the mid and small-cap space, the focus remained on identifying high-quality businesses with strong governance, sustainable competitive advantages and reasonable valuations, where earnings visibility was relatively higher.

Kotak Mutual Fund remains committed to its investment philosophy of Growth at a Reasonable Price (GARP), combining bottom-up stock selection with a top-down thematic overlay and assessment of macroeconomic and sectoral trends. The focus continues to be on long-term wealth creation through disciplined investing.

A brief commentary on the operations and performance of our schemes are as follows:

Kotak Flexi Cap Fund:

The fund has outperformed Tier-1 benchmark in FY 2025-26 and in the period since inception, in Direct Plan. The outperformance in the scheme is attributed to the right sectoral allocation and stock selection calls.

The net assets of the scheme amounted to Rs. 50,146 crores as at March 31, 2026 as against Rs. 49,130 crores as at March 31, 2025.

As at March 31, 2026, 97.30% of the total assets were invested in equity and equity related instruments, 2.70% in Debt & money market instruments and in other current assets (including Fixed Deposits/ Reverse Repos/ TREPS).

Last 5 Years	11.71%	10.30%	1.41%	10.01%	1.70%

Inception date is 01/01/2013

Kotak Small Cap Fund:

The fund has marginally underperformed Tier-1benchmark in FY 2025-26 and outperformed in the period since inception, in Direct Plan. The fund has underperformed the benchmark in FY2025-26 led by (1) significant exposure to companies that were facing a temporary headwind in the business (weak summer season, delayed execution led by temporary external issues, etc.) and cyclical downturn. (2) The fund had lower holding in capital market names related entities and certain smaller BFSI entities. To ensure no sector remains underrepresented in our portfolio, we have, over the past few months, added select high quality BFSI names.

The net assets of the scheme amounted to Rs. 15,157 crores as at March 31, 2026 as against Rs. 15,706 crores as at March 31, 2025.

As at March 31, 2026, 98.98% of the total assets were invested in equity and equity related instruments, 1.02% in Debt & money market instruments and in other current assets (including Fixed Deposits/ Reverse Repos/ TREPS).

Kotak Focused Fund (Erstwhile known as Kotak Focused Equity Fund):

The fund has outperformed Tier-1benchmark in FY 2025-26 and in the period since inception, in Direct Plan. The fund seeks to identify businesses which are market leaders with strong earnings growth, good corporate governance practices and superior Return on Equity (ROE) trading at reasonable valuations. The approach of the fund is bottom up in nature with a longer-term investment horizon.

The net assets of the scheme amounted to Rs. 3,700 crores as at March 31, 2026 as against Rs. 3,335 crores as at March 31, 2025.

As at March 31, 2026, 95.91% of the total assets were invested in equity and equity related instruments, 4.09% in Debt & money market instruments and in other current assets (including Fixed Deposits/ Reverse Repos/ TREPS).

Kotak ESG Exclusionary Strategy Fund:

The fund has underperformed the benchmark in FY 2025-26 and in the period since inception, in Direct Plan. The underperformance in the scheme was largely driven by restrictions related to investment universe, wherein it was mandatory for the fund to invest only in companies that had published BRSR reports. The benchmark constituent companies did not have the same requirement to be part of the benchmark. During the year, negative contribution towards fund performance was from–1) underperformance of select healthcare, consumer and oil & gas stocks in the portfolio, and b) lower allocation to the metals & mining space which has outperformed the benchmark and broader market.

The net assets of the scheme amounted to Rs. 709 crores as at March 31, 2026 as against Rs. 848 crores as at March 31, 2025.

As at March 31, 2026, 97.90% of the total assets were invested in equity and equity related instruments, 2.10% in Debt & money market instruments and in other current assets (including Fixed Deposits/ Reverse Repos/ TREPS) .

Kotak Energy Opportunities Fund:

The scheme was launched on April 25, 2025. Since it has not completed 1 year since its inception, the returns could not be compared to its benchmark.

Kotak Active Momentum Fund:

The scheme was launched on August 20, 2025. Since it has not completed 1 year since its inception, the returns could not be compared to its benchmark.

Kotak Rural Opportunities Fund:

The scheme was launched on November 27, 2025. Since it has not completed 1 year since its inception, the returns could not be compared to its benchmark.

Kotak Dividend Yield Fund:

The scheme was launched on January 27, 2026. Since it has not completed 1 year since its inception, the returns could not be compared to its benchmark.

Kotak Services Fund:

The scheme was launched on February 25, 2026. Since it has not completed 1 year since its inception, the returns could not be compared to its benchmark.

Kotak Gilt Fund:

The fund has underperformed the benchmark in FY 2025-26 and slightly outperformed the period since inception in Direct Plan. During FY 2025–26, bond yields remained highly volatile amid domestic and geopolitical developments, making market direction difficult to predict. The outlook continued to favour rate easing in India, with an overweight position at the longer end of the yield curve. However, despite aggressive RBI OMO bond purchases and supportive macroeconomic conditions, a sharp supply-demand mismatch led to yield curve steepening and underperformance of long-duration bonds. Key factors included muted demand from banks and pension funds, while year-end events such as tariff tensions and geopolitical conflicts further disrupted market dynamics. Further, the fund bears an expense ratio, unlike the benchmark.

The net assets of the scheme amounted to Rs. 2,579 crores as of March 31, 2026, as against Rs. 3,934 crores as of March 31, 2025.

As at March 31, 2026, 93.60% of the total assets of the Scheme were invested in G-Sec instruments, 6.40% in other current assets (including Fixed Deposits/Reverse Repos/TREPS).

Kotak Bond Fund:

The fund has underperformed benchmark in FY 2025-26 and in the period since inception, in Direct Plan. Underperformance in the scheme is attributed due to acute supply-demand mismatch led to yield curve steepening and underperformance of long-duration bonds. Further, the fund bears an expense ratio, unlike the benchmark.

The net assets of the scheme amounted to Rs. 1,878 crores as of March 31, 2026, as against Rs. 2,031 crores as of March 31, 2025.

As at March 31, 2026, 98.44% of the total assets of the scheme were invested in Debt & money market instruments, 1.56% in other current assets (including Fixed Deposits/Reverse Repos/TREPS).

Kotak Banking and PSU Debt Fund:

The fund has outperformed the benchmark in FY 2025-26 and in the period since inception, in Direct Plan. In FY2025–26, bond yields remained highly volatile amid domestic and geopolitical developments, making market direction difficult to predict. While the outlook for rate easing in India remained positive and the fund maintained an overweight position at the longer end of the yield curve, a sharp supply-demand mismatch led to yield curve steepening despite aggressive RBI OMO bond purchases and supportive macro conditions. The rate cut cycle and improved liquidity primarily benefited the shorter end of the curve, which supported the fund given its 3–4 year maturity profile. Further, the fund bears an expense ratio, unlike the benchmark.

The net assets of the scheme amounted to Rs. 5,173 crores as of March 31, 2026, as against Rs. 6,011 crores as of March 31, 2025.

As at March 31, 2026, 97.08% of the total assets of the scheme were invested in Debt & money market instruments, 2.92% in other current assets (including Fixed Deposits/Reverse Repos/TREPS).

Kotak Bond Short Term Fund:

The fund has outperformed the benchmark in FY 2025-26 and in the period since inception, in Direct Plan.In FY2025–26, bond yields remained highly volatile due to domestic and geopolitical developments, making market movements difficult to predict. While the outlook for rate easing in India remained constructive, with an overweight stance at the longer end of the yield curve, an acute supply-demand mismatch led to yield curve steepening despite aggressive RBI OMO bond purchases and favourable macroeconomic conditions. The subsequent rate cut and liquidity support benefited the shorter end of the curve, which supported the fund given its 2–3 year maturity profile. However, the fund maintained a 100% AAA asset profile and relatively higher liquidity versus the benchmark. Given the volatility in the segment, this higher liquidity impacted YTM accruals. Further, the fund bears an expense ratio, unlike the benchmark.

The net assets of the scheme amounted to Rs. 15,221 crores as of March 31, 2026, as against Rs. 16,681 crores as of March 31, 2025.

As at March 31, 2026, 104.01% of the total assets of the scheme were invested in Debt & money market instruments, -4.01% in other current assets (including Fixed Deposits/Reverse Repos/TREPS).

Kotak Liquid Fund:

The fund has outperformed the benchmark in FY 2025-26 and in the period since inception, in Direct Plan.

In FY-2026 while the fund maintained a bullish stance on rate cuts and liquidity, consistently holding a high duration versus the index proved difficult. Given the fund's superior liquidity profile, its yield-to-maturity (YTM) trailed the index by approximately 12-15 basis points, despite having a similar or higher duration. As a result in the direct plan, it marginally outperformed the benchmark across all periods.

The net assets of the scheme amounted to Rs. 33,309 crores as of March 31, 2026, as against Rs. 31,251 crores as of March 31, 2025.

As at March 31, 2026, 122.62% of the total assets of the scheme were invested in Debt & money market instruments, -22.62% in other current assets (including Fixed Deposits/Reverse Repos/TREPS).

Kotak Overnight Fund:

The fund has outperformed the benchmark in FY 2025-26 and slightly underperformed the period since inception, in Direct Plan. This category has highly volatile AUM, and it is extremely challenging to surpass the daily average of TREPS rate in fund deployment. Additionally, the expenses contribute to the underperformance in the period since inception compared to the index as the benchmark does not contain any expenses.

The net assets of the scheme amounted to Rs. 5,067 crores as of March 31, 2026, as against Rs. 3,499 crores as of March 31, 2025.

As at March 31, 2026, 100% of the total assets of the Scheme were invested in Triparty Repo & Net Current Asset.

Kotak Floating Rate Fund:

The fund has outperformed the benchmark in FY 2025-26 and in the period since inception, in Direct Plan. In FY-2026, bond yields saw significant volatility due to local and geopolitical events, making market predictions challenging. Outlook was bullish on rate easing in India and positioned overweight in 3 year segment of the yield curve with Macaulay duration of ~2 years in the fund which was significantly higher than the index most of time. The RBI infused liquidity in the banking system via OMO bond purchases apart from cutting rates led to steepening of the yield curve making the segment performance better.

The net assets of the scheme amounted to Rs. 3,250 crores as of March 31, 2026, as against Rs. 3,218 crores as of March 31, 2025.

As at March 31, 2026, 98.68% of the total assets of the scheme were invested in Debt & money market instruments, 1.32% in other current assets (including Fixed Deposits/Reverse Repos/TREPS).

Kotak Long Duration Fund:

The fund has underperformed the benchmark in FY 2025-26 and in the period since inception, in Direct Plan.During FY 2025–26, bond yields remained highly volatile amid domestic and geopolitical developments, making market direction difficult to predict. The outlook continued to favour rate easing in India, with an overweight position at the longer end of the yield curve. However, despite aggressive RBI OMO bond purchases and supportive macroeconomic conditions, a sharp supply-demand mismatch led to yield curve steepening and underperformance of long-duration bonds. Key factors included muted demand from banks and pension funds, while year-end events such as tariff tensions and geopolitical conflicts further disrupted market dynamics. Further, the fund bears an expense ratio, unlike the benchmark.

The net assets of the scheme amounted to Rs. 98 crores as of March 31, 2026, as against Rs. 151 crores as of March 31, 2025.

As at March 31, 2026, 99.15% of the total assets of the scheme were invested in Debt & money market instruments, 0.85% in other current assets (including Fixed Deposits/Reverse Repos/TREPS).

Kotak Aggressive Hybrid Fund(Erstwhile known as Kotak Equity Hybrid Fund):

The fund has outperformed benchmark in FY 2025-26 and the period since inception in Direct Plan.

The outperformance in the scheme is attributed due to the mix of right sector & stock allocations from time to time. On the fixed income side the fund maintained a prudent stance on credit risk and did not take any significant incremental credit exposure, while actively managing portfolio duration in line with evolving market conditions.

The net assets of the scheme amounted to Rs. 7,812 crores as of March 31, 2026 as against Rs. 6,795 crores as of March 31, 2025.

As of March 31, 2026, 79.71% of the total assets were invested in equity and equity related instruments, 14.88% in Debt & money market instruments, and 5.41% in other current assets (including Fixed Deposits/ Reverse Repos/ TREPS).

Kotak Balanced Advantage Fund:

The fund has outperformed the benchmark in FY 2025-26 and in the period since inception in Direct Plan. The outperformance in the scheme is attributed due to the dynamic allocation to equities basis the market levels. On the fixed income side, bond yields were impacted by a sharp supply-demand mismatch, which led to a steepening of the yield curve and consequently weighed on the performance of long-duration bonds.

The net assets of the scheme amounted to Rs. 7,812 crores as of March 31, 2026 as against Rs. 6,795 crores as of March 31, 2025.

As of March 31, 2026, 79.71% of the total assets were invested in equity and equity related instruments, 14.88% in Debt & money market instruments, and 5.41% in other current assets (including Fixed Deposits/ Reverse Repos/ TREPS).

Kotak Debt Hybrid Fund:

The fund has slightly underperformed the benchmark in FY 2025-26 and marginally outperformed in the period since inception in Direct Plan. The scheme's outperformance can be attributed to its continued large-cap-biased equity exposure, with a focus on companies exhibiting superior return on equity (RoE) profiles and available at reasonable valuations. On the fixed income side, bond yields were impacted by a sharp supply-demand mismatch, which led to a steepening of the yield curve and consequently weighed on the performance of long-duration bonds.

The net assets of the scheme amounted to Rs. 2,863 crores as of March 31, 2026 as against Rs. 3,017 crores as of March 31, 2025.

As of March 31, 2026, 21.56% of the total assets were invested in equity and equity related instruments, 64.57% in Debt & money market instruments, and 13.87% in other current assets (including Fixed Deposits/ Reverse Repos/ TREPS).

Kotak Multi Asset Omni FOF (Erstwhile known as Kotak Multi Asset Allocator Fund of Fund-Dynamic):

The fund has underperformed the benchmark in FY 2025-26 and outperformed the period since inception, in Direct Plan. There was a change in the Scheme's structure as during the mid-year silver was added as an investment asset class and there was a corresponding change in the Benchmark. During the year, silver was introduced as an additional investment asset class, resulting in a corresponding change in the scheme's benchmark. As silver had already appreciated significantly before its inclusion, while the revised benchmark reflected the updated allocation for the entire year, this led to the scheme's relative underperformance against the benchmark during the year.

The net assets of the scheme amounted to Rs. 2,274 crores as of March 31, 2026 as against Rs. 1,652 crores as of March 31, 2025.

As at March 31, 2026, 96.25% of the assets were invested in underlying schemes and 3.75% in other current assets (including Fixed Deposits/ Reverse Repos/TREPS).

Kotak Global Innovation Overseas Equity Omni FOF (Erstwhile known as Kotak Global Innovation Fund of Fund):

The fund has underperformed the benchmark in FY 2025-26 and in the period since inception, in Direct Plan.The scheme invests in units of Wellington Global Innovation Fund, with GenInnov Global Master Fund being added in February 2025. At inception, the underlying fund had a relatively high exposure to China, which contributed to underperformance. Over the past year, performance was further impacted by an underweight allocation to AI and technology stocks. Additionally, expenses at both the underlying fund and scheme levels have contributed to the underperformance since inception, whereas the benchmark does not account for any expenses.

The net assets of the scheme amounted to Rs. 605 crores as of March 31, 2026 as against Rs. 485 crores as of March 31, 2025.

As at March 31, 2026, 98.68% of the assets were invested in underlying schemes and 1.32% in other current assets (including Fixed Deposits/ Reverse Repos/TREPS).

All Kotak FMP Series:

These are primarily passively managed funds where the investments are done at the fund's launch and typically are held until maturity, as opposed to dynamically managed funds. The benchmark index which could be dynamically managed by the index provider, along with the expense ratio charged by the schemes, often leads to these schemes underperforming the benchmark.

Name of Scheme Benchmark.

2. Brief background of Sponsor, Trust, Trustee Company and AMC

a) Sponsor

Kotak Mahindra Mutual Fund is sponsored by Kotak Mahindra Bank Limited (KMBL). The Sponsor is the Settlor of the Mutual Fund Trust. The Sponsor has contributed Rs. One Lakh as the initial contribution to the corpus for the setting up of the Trust. The Sponsor has also contributed Rs. One Lakh Fifty Thousand as additional corpus.

The erstwhile Sponsor Company, Kotak Mahindra Finance Limited (KMFL) was converted into Kotak Mahindra Bank Limited (Kotak Bank) in March 2003 after a banking license was granted to it by the Reserve Bank of India. KMFL from being a provider of a single financial product, KMFL grew substantially into a highly diversified financial services conglomerate. As on March 31, 2026, the net worth (capital, plus reserves & surplus) of Kotak Bank is Rs. 134,779.45 crores. The Sponsor and its subsidiaries/associates offer wide ranging financial services such as loans, lease and hire purchase, consumer finance, home loans, commercial vehicles and car finance, microfinance, investment banking, stock broking, mutual funds, primary market distribution of equity and debt products, general and life insurance.

b) Kotak Mahindra Mutual Fund

Kotak Mahindra Mutual Fund (the "Mutual Fund") has been constituted as a trust on May 20, 1996, in accordance with the provisions of the Indian Trusts Act, 1882 (2 of 1882) with Kotak Mahindra Bank Limited, as the Sponsor and Kotak Mahindra Trustee Company Limited as the Trustee. The Trust Deed has been registered under the Indian Registration Act, 1908. The Mutual Fund was registered with SEBI on June 23, 1998 under Registration Code MF/038/98/1.

c) Kotak Mahindra Trustee Company Limited

Kotak Mahindra Trustee Company Limited ("Trustee/KMTCL") is the exclusive owner of the Trust Fund and holds the same in trust for the benefit of the unit holders. The Trustee has been discharging its duties and carrying out the responsibilities as provided in the Regulations and the Trust Deed. The Trustee seeks to ensure that the Fund and the Schemes floated there under are managed by Kotak Mahindra Asset Management Company Limited is in accordance with the Trust Deed, the Regulations, directions and guidelines issued by the SEBI, the Stock Exchanges, the Association of Mutual Funds in India and other regulatory agencies.

However, under Regulation 18(26) of SEBI (Mutual Funds) Regulations, 1996, the Trustees shall not be liable for acts done in good faith if they have exercised adequate due diligence honestly.

KMTCL also acts as a trustee for scheme(s) launched/floated by Kotak India Renaissance Fund- I Trust and Kotak Credit Opportunities Fund Trust.

d) Kotak Mahindra Asset Management Company Limited

Kotak Mahindra Asset Management Company Limited ("KMAMC") is a limited company incorporated under the Companies Act, 1956 on August 2, 1994. Kotak Mahindra Asset Management Company Limited has been appointed as the Asset Management Company of the Mutual Fund by the Trustee vide Investment Management Agreement (IMA) dated May 20, 1996, as amended up to date, and executed between the Trustee and the KMAMC.

Kotak Mahindra Asset Management Company Limited is a wholly owned subsidiary of the Sponsor, Kotak Mahindra Bank Ltd.

An approval by the Division of Funds, Investment Management Department under the SEBI (Portfolio Manager) Regulations, 1993, Mutual Funds Division of SEBI under the SEBI ('Mutual Funds') Regulations, 1996, and Alternative Investment Funds (AIF) under SEBI (Alternative Investment Funds), Regulations 2012 has been granted to KMAMC for undertaking Portfolio Management Service (PMS), Mutual Fund Services and Alternative Investments Funds (AIF) activity.

KMAMC has also obtained a "No Objection Certificate" for additional activities to be undertaken through its branch as a Registered FME(Retail) in accordance with the provisions of IFSC (Fund Management) Regulations, 2025.

3. Investment Objectives of the Schemes

Kotak Flexicap Fund

The investment objective of the scheme is to generate long-term capital appreciation from a portfolio of equity and equity related securities, generally focused on a few selected sectors.

However, there is no assurance that the objective of the scheme will be realized.

Kotak Midcap Fund(Erstwhile known as Kotak Emerging Equity Fund)

The investment objective of the scheme is to generate long-term capital appreciation from a portfolio of equity and equity related securities, by investing predominantly in mid –cap companies. The scheme may also invest in debt and money market instruments, as per the asset allocation table. There is no assurance that the investment objective of the Scheme will be achieved.

Kotak Large & Midcap Fund (Erstwhile known as Kotak Equity Opportunities Fund)

The investment objective of the scheme is to generate capital appreciation from a diversified portfolio of equity and equity related securities. The scheme will invest predominantly in a mix of large and mid-cap stocks from various sectors, which look promising, based on the growth pattern in the economy. There is no assurance that the investment objective of the Scheme will be achieved.

Kotak Focused Fund(Erstwhile known as Kotak Focused Equity Fund)

The investment objective of the scheme is to generate long-term capital appreciation/ income by investing in equity & equity related instruments across market capitalization of up to 30 companies. However, there is no assurance that the objective of the scheme will be realized.

Kotak Large Cap Fund (Erstwhile known as Kotak Bluechip Fund)

To generate capital appreciation from a portfolio of predominantly equity and equity related securities falling under the category of large cap companies. There is no assurance that the investment objective of the Scheme will be achieved.

Kotak Small Cap Fund

The investment objective of the scheme is to generate capital appreciation from a diversified portfolio of equity and equity related securities by investing predominantly in small cap companies.There is no assurance that the investment objective of the Scheme will be achieved.

Kotak ELSS Tax Saver Fund

The investment objective of the scheme is to generate long-term capital appreciation from a diversified portfolio of equity and equity related securities and enable investors to avail the income tax rebate, as permitted from time to time. However, there is no assurance that the objective of the scheme will be realized

Kotak Contra Fund (Erstwhile known as Kotak India EQ Contra Fund)

The investment objective of the Scheme is to generate capital appreciation from a diversified portfolio of equity and equity related instruments. The Scheme will invest in stocks of companies, which are fundamentally sound but are undervalued. Undervalued stocks are stocks of those companies whose true long term potential is not yet recognised by the market. At times, the broad market takes time to appreciate the long-term potential of some fundamentally sound companies. Stocks of such companies are traded at prices below their intrinsic value and are regarded as undervalued stocks. We believe that, over a period of time, the price of a stock reflects the intrinsic value of the underlying company. Thus, the moving up of the price of the undervalued stock towards its intrinsic value will help us generate capital appreciation for investors. There is no assurance that the investment objective of the Scheme will be achieved.

Kotak Infrastructure & Economic Reform Fund

The investment objective of the scheme is to generate long-term capital appreciation from a diversified portfolio of predominantly equity and equity-related securities of companies involved in economic development of India as a result of potential investments in infrastructure and unfolding economic reforms. However, there is no assurance that the objective of the scheme will be realized.

Kotak Pioneer Fund

The investment objective of the scheme is to generate capital appreciation from a diversified portfolio of equity, equity related instruments and units of global mutual funds which invests into such companies that utilize new forms of production, technology, distribution or processes which are likely to challenge existing markets or value networks, or displace established market leaders, or bring in novel products and/or business models. However, there can be no assurance that the investment objective of the Scheme will be realized.

Kotak ESG Exclusionary Strategy Fund

The scheme shall seek to generate capital appreciation by investing in a diversified portfolio of companies that follow Environmental, Social and Governance parameters. However, there can be no assurance that the investment objective of the Scheme will be realized.

Kotak Manufacture in India Fund

The scheme shall seek to generate capital appreciation by investing in a diversified portfolio of companies that follow the manufacturing theme. However, there is no assurance that the objective of the scheme will be realized.

Kotak Multicap Fund

The investment objective of the scheme is to generate long-term capital appreciation from a portfolio of equity and equity related securities across market capitalization. However, there is no assurance that the objective of the scheme will be realized.

Kotak Business Cycle Fund

The scheme shall seek to generate long term capital appreciation by investing predominantly in equity and equity related securities with a focus on riding business cycles through dynamic allocation between various sectors and stocks at different stages of business cycles in the economy. However, there is no assurance that the objective of the scheme will be realized.

The investment objective of the scheme is to provide long term capital appreciation from an actively managed portfolio of equity and equity related securities of companies belonging to the services industry. However, there can be no assurance that the investment objective of the scheme would be achieved.

Kotak Arbitrage Fund(Erstwhile known as Kotak Equity Arbitrage Fund)

The investment objective of the scheme is to generate capital appreciation and income by predominantly investing in arbitrage opportunities in the cash and derivatives segment of the equity market, and by investing the balance in debt and money market instruments. However, there is no assurance that the objective of the scheme will be realized

Kotak Equity Savings Fund

The investment objective of the scheme is to generate capital appreciation and income by predominantly investing in arbitrage opportunities in the cash and derivatives segment of the equity market, and enhance returns with a moderate exposure in equity & equity related instruments. There is no assurance or guarantee that the investment objective of the scheme will be achieved.

Kotak Aggressive Hybrid Fund(Erstwhile known as Kotak Equity Hybrid Fund)

Investment objective of the scheme is to achieve growth by investing in equity and equity related instruments, balanced with income generation by investing in debt and money market instruments. However, there is no assurance that the objective of the scheme will be realized.

Kotak Debt Hybrid Fund

The investment objective of the scheme is to enhance returns over a portfolio of debt instruments with a moderate exposure in equity and equity related instruments. By investing in debt securities, the scheme will aim at generating regular returns, while enhancement of return is intended through investing in equity and equity related securities. The scheme may also use various derivative and hedging products from time to time, in the manner permitted by SEBI. There is no assurance that the investment objective of the Scheme will be realised.

Kotak Balanced Advantage Fund

The investment objective of the scheme is to generate capital appreciation by investing in a dynamically balanced portfolio of equity & equity related securities and debt & money market securities. There is no assurance or guarantee that the investment objective of the scheme will be achieved.

Kotak Multi Asset Allocation Fund

The investment objective of the scheme is to generate long term capital appreciation by investing in Equity & Equity related Securities, Debt & Money Market Instruments, Commodity ETFs and Exchange Traded Commodity Derivatives. However, there is no assurance that the objective of the scheme will be achieved.

Kotak Gilt Fund

The objective of the Plan is to generate risk-free returns through investments in sovereign securities issued by the Central Government and/or State Government(s) and/or any security unconditionally guaranteed by the Government of India, and/or reverse repos in such securities as and when permitted by RBI. A portion of the fund may be invested in Reverse repo, Triparty repo on Government securities or treasury bills and/or other similar instruments as may be notified to meet the day-to-day liquidity requirements of the Plan. To ensure total safety of Unitholders' funds, the Plan does not invest in any other securities such as shares, debentures or bonds issued by any other entity. The Fund will seek to underwrite issuance of Government Securities if and to the extent permitted by SEBI/RBI and subject to the prevailing rules and regulations specified in this respect and may also participate in their auction from time to time. Subject to the maximum amount permitted from time to time, the Plan may invest in securities abroad, in the manner allowed by SEBI/RBI in conformity with the guidelines, rules and regulations in this respect. There is no assurance that the investment objective of the Plan will be achieved. It is however emphasized, that investments under the Plan are made in Government Securities, where there is no risk of default of payment in principal or interest amount.

Kotak Bond Fund

The investment objective of the Scheme is to create a portfolio of debt instruments such as bonds, debentures, Government Securities and money market instruments, including repos in permitted securities of different maturities, so as to spread the risk across different kinds of issuers in the debt markets. While KMAMC shall continue to make efforts to ensure that the unclaimed amounts are paid to rightful investors, we would earnestly request our investors to recheck their folio's for unclaimed balances if any and make suitable requests to the KMAMC or CAMS.

6. Statutory Information:

a. The Sponsors are not responsible or liable for any loss resulting from the operation of the Schemes of the Fund beyond their initial contribution of Rs. One Lakh for setting up the Fund and has also contributed Rs. One Lakh Fifty Thousand as additional corpus.

b. The price and redemption value of the units, and income from them, can go up as well as down with the fluctuations in the market value of its underlying investments in securities.

c. Full Annual Report shall be disclosed on the website (www.kotakmf.com) and shall be available for inspection at the Head Office of Kotak Mahindra Mutual Fund. On written request, present and prospective unitholders/investors can obtain a physical copy of the trust deed, the annual report and scheme related documents at a nominal price.

d. The annual report of Kotak Mahindra Asset Management Company Limited is disclosed on website https://www.kotakmf.com/Information/statutory-disclosure. Unitholders, if they so desire, may request for the annual report of Kotak Mahindra Asset Management Company Limited.

7. Disclosure of investor complaints

In accordance with para 5.13 on Disclosure of Investor complaints with respect to Mutual Funds, of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, disclosure on investor complaints with respect to schemes of Kotak Mahindra Mutual Fund during Financial Year 2025– 2026 is enclosed herewith vide Annexure 1.

8. General Policies and Procedures for exercising the voting rights.

In view of SEBI guidelines related to "Role of Mutual Funds in Corporate Governance of Public Listed Companies", KMAMC has formulated its "Policy for Proxy Voting in Public Listed Companies". The said policy and details of actual exercise of proxy votes along with the summary of votes cast during the Financial Year 2025-2026 and the scrutinizer's certification thereon is enclosed herewith vide Annexure 2. Pursuant to para 6.16 on Role of Mutual Funds in Corporate Governance of Public Listed Companies, of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, the voting details are disclosed on our website https://www.kotakmf.com/Information/statutory-disclosure.

9. Disclosure of scheme wise changes in Riskometer.

In accordance with para 17.4 on Product Labelling in Mutual Funds, of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, disclosure of scheme wise changes in riskometer in schemes of Kotak Mahindra Mutual fund during Financial year 2025-26 is enclosed herewith vide Annexure 3.

10. Report on implementation of principles of Stewardship Code

In accordance with the requirements of para 6.16.15 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024 a report on implementation of every Principle may be sent as a part of annual intimation to the unitholders. The said report on implementation of every Principle as enumerated in the Stewardship Policy is disclosed on our website https://www.kotakmf.com/Information/statutory-disclosure/Stewardship Policy.

11. Liability and Responsibility Of Trustee And Sponsor(s)

The primary responsibility of the Trustee is to safeguard the interest of the Unitholders and inter-alia ensure that KMAMC functions in the interest of investors and in accordance with the Regulations, the provisions of the Trust Deed and the Statement of Additional Information, Scheme Information Document/Offer Document of the respective Schemes. From the information provided to the Trustee at its periodic Board and committee meetings and the reviews the Trustee has undertaken through its Board of Directors at such periodic meetings the Trustee believes that KMAMC has operated in the interests of the Unitholders.

The Sponsors are not responsible or liable for any loss resulting from the operation of the Schemes of the Fund beyond their initial contribution of Rs. One Lakh for setting up the Fund and has also contributed Rs. One Lakh Fifty Thousand as additional corpus.

12. Other items

A. Key Regulatory Changes:

During the year, the key SEBI circulars/letters/amendments pertaining to the mutual fund area issued by SEBI/AMFI are as follows :

- Change in cut-off timings to determine applicable NAV with respect to repurchase/ redemption of units in overnight schemes of Mutual Funds;
- Strengthening the monitoring mechanism to detect potential and/or actual cases of mis-selling of MF schemes by MFDs and reporting the cases of mis-selling to AMFI.
- Accessibility and Inclusiveness of Digital KYC to Persons with Disabilities;
- Timelines for rebalancing of portfolios of mutual fund schemes in cases of all passive breaches;
- Rights of Persons with Disabilities Act, 2016 and rules made thereunder-mandatory compliance by all Regulated Entities;
- Additional incentives to distributors for onboarding new individual investors from B-30 cities and women investors;
- Categorization and Rationalization of Mutual Fund Schemes;
- Valuation of physical Gold and Silver held by mutual fund schemes
- Introduction of Voluntary Lock-in Debit freeze facility to Mutual Fund Folios

which have been appropriately implemented by Kotak Mahindra Mutual Fund, as applicable.

Annexure-2

Voting Policy

Kotak Mahindra Asset Management Company Limited (KMAMC) is a believer in the principle that good Corporate Governance enhances the value of the company.

As an investment manager with a fiduciary responsibility towards its unitholders, KMAMC believes that it should exercise its right to vote neither for nor against management, but always in the best interests of unitholders of its schemes.

One of the primary factors KMAMC considers when determining the desirability of investing in a particular company is the quality and depth of its management. We recognize that a company's management is entrusted with the day-to-day operations of the company, as well as its long-term direction and strategic planning, subject to the oversight of the company's board of directors.

Accordingly, our proxy voting guidelines are not intended to substitute our judgment for management's with respect to the company's day-to-day operations. Rather, our voting guidelines are designed to promote accountability of a company's management and board of directors to its shareholders; to align the interests of management with those of shareholders; and, to encourage companies to adopt best practices in terms of their corporate governance. We rely on a company's disclosures, its Board's recommendations, a company's track record, specific best practices codes, our research analysis and, most importantly, our Fund Management Departments views, in making voting decisions.

KMAMC will follow the following policy and procedure for exercising voting rights:

1. Appointment of Voting Committee ("The Committee")

Voting Committee was appointed by the Board in June 2014. The policy allows the Voting Committee to delegate rights under the Voting Policy to the Fund Managers of the Schemes, subject to such controls as they deem fit.

Subsequently, in September 2015, the voting rights under the policy have been delegated to CIO-Equities & Fixed Income* and all such Fund Managers of the schemes where there is holding in the company for which voting is to be done by the Voting Committee. CIO-Equities & Fixed Income* and all such Fund Managers shall report to Voting Committee. Wherever CIO-Equities & Fixed Income* and Fund Managers of the schemes require an opinion on voting decision, it shall consult the Voting Committee for voting decision.

*CIO-Fixed Income in case of holding in REIT / INVIT units, where such investment decision is taken by Debt Fund Manager.

2. Principles for Voting

i. KMAMC shall compulsorily cast votes on all the resolutions. Even equity holding in passive investment schemes like ETF, Index Funds shall be considered for the purpose of voting.

ii. In case of no economic interest on the day of voting (for e.g. Nil holding), the Mutual Fund is exempted from compulsorily casting of votes.

iii. Voting is completely discretionary i.e. the decision may include to "vote for" or "against" or divide votes between "for" and "against". The rationale for decision taken on "voting for /voting against" shall be recorded in writing by the Voting Committee.

iv. The Voting Committee will exercise proxy voting discretion on particular types of proposals.

v. The vote shall be cast at Mutual Fund Level. However, in case a Fund Manager/(s) of any specific scheme has strong view against the views of Fund Manager/(s) of the other schemes, the voting at scheme level shall be allowed subject to recording of detailed rationale for the same.

vi. In respect of voting for holding in ESG scheme(s), it shall be ensured that:

- Voting decisions are in accordance with the objectives of the scheme.
- Under the rationale for voting decision (whether" in favour" or "against"), KMAMC shall categorically disclose whether the resolution has or has not been supported due to any environmental, social or governance reasons.
- The disclosure of voting rationale may be made at the Mutual Fund level. However, in instances wherein the voting approach for ESG and non-ESG schemes is not same, the details and rationale for votes cast on behalf of ESG schemes and non-ESG schemes shall be disclosed separately.

vii. Assessment of implication of voting: The Voting Committee has the responsibility for the content, interpretation and application of the proxy votes and assessing the impact on the company of such voting. All the matters will be addressed on a case to case basis keeping in view the interest of unitholders.

viii. Manner of Voting: KMAMC shall carry out voting either by e-voting, voting through proxy or by physically attending the meetings.

ix. Voting Advisors / Third Party – KMAMC may utilize the services of Proxy Advisory Firm/s and/or Third Party, which provide following services:

- Proxy advisory report analyzing resolutions put up for consideration of shareholders and giving analysis of the resolutions put up to shareholders vote.
- Voting recommendation on all resolutions placed for shareholder consideration.
- General analysis about the company covered highlighting any corporate governance issues.

In such cases, KMAMC shall consider the proxy advisory report provided by Proxy Advisory Firm/s and/ or Third Party. KMAMC may go with the voting recommendations as provided by Proxy Advisory Firm/s and/ or Third Party, or may change it based on additional due diligence i.e. the final voting decision shall vest with KMAMC.

3. Governance measures

Investment in companies that have subscribed to the units of their schemes, KMAMC shall not make any distinction between companies that have invested in KMMF schemes vis-a-vis other companies. All companies will be treated on par for the purpose of this voting policy.

4. Decision making in the Committee

Each matter submitted to the Committee will be determined by the vote of a majority of the members present at the meeting. Should the vote concerning one or more recommendations be tied in a vote of the Committee the final voting decision will be taken by the CEO/ MD.

5. Resolving conflicts of interest

The Committee is also responsible for monitoring and resolving possible material conflicts between the interests of KMAMC and those of unitholders with respect to proxy voting. The Committee shall always ensure that voting will be in the exclusive interest of the unitholders of the schemes.

6. Representation at the general body meeting

The Committee may through a suitable delegation, exercise its decision on voting at the meetings in favour of any of its authorized representatives.

7. Disclosures

KMAMC shall follow the disclosure requirements in accordance with the guidelines set out by SEBI and as may be modified from time to time. The disclosures shall be made at such places and at such periodicity as defined by SEBI from time to time.

This policy has been approved by the Board of Directors of Kotak Mahindra Asset Management Company Limited at their meeting held on 19th January 2026 and Board of Directors of Kotak Mahindra Trustee Company Limited at their meeting held on 21st January 2026.

This policy would be reviewed and updated atleast on an annual basis or as and when there are regulatory changes.

Annexure-2

M. P. Chitale & Co.

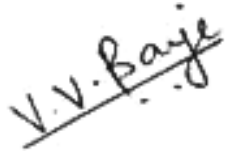
Chartered Accountants

708, Trade World, 'C' Wing, Kamala Mills Compound, Senapati Bapat Marg, Lower Parel, Mumbai 400 013. • Tel.: 43474301-43474303

The Board of Trustees,
Kotak Mahindra Trustee Company Ltd.
Kotak Infiniti, 6th Floor, Building No.21,
Infinity Park, Goregaon Mulund Link Road,
General AK Vaidya Marg,
Malad (E), Mumbai.

We have been appointed by Kotak Mahindra Asset Management Company Ltd. ('KMAMC') as scrutinizer to provide certification on the proxy reports being disclosed by the AMC in terms of Clause 6.16.7 of SEBI Master Circular SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024 to issue a certificate to be submitted to trustees.

We have verified the voting disclosures made by KMAMC on quarterly basis for the period April 2025 to March 2026 on the basis of data obtained from custodian and the AMC w.r.t. the voting decision (either to vote for/against/abstain from voting) duly supported by the rationale for each agenda item intimated to proxy and confirmations sent by proxy for voting carried out.



We have also verified the annual voting disclosures made by KMAMC on the website for the year 2025-26 on the basis of above quarterly disclosures.

We certify that AMC has disclosed details of all the votes cast in the format specified in the circular. We also certify that the voting reports disclosed by the AMC on its website, are in accordance with the requirements of Clause 6.16 of SEBI Master Circular SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024 except for voting in respect of Cognizant Technology Solutions during quarter ended June 30, 2025 by Kotak Technology Fund could not be exercised as the email received from custodian on a proposed resolution did not mention brief details of voting in the subject line of email, resulting in the AMC inadvertently missing the voting communication. The necessary corrective action(s) have been implemented to help avoid recurrence and the said instance was reported to the Board of Trustees and SEBI in the Compliance Test Report and Half Yearly Trustee Report to SEBI.

This certification has been issued for submission to Board of Directors of Kotak Mahindra Trustee Company Ltd. to disclose the same in Kotak Mahindra Mutual Fund's Annual Report and on the website in terms of Clause 6.16.7 of SEBI Master Circular SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024 and should not be used for any other purpose other than mentioned in the said circular.

Yours faithfully,

Kotak Nifty Next 50 ETF

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements of the Scheme give a true and fair view in accordance with Indian Accounting Standards ('IND AS') and any addendum thereto, as notified by the Companies (Indian Accounting Standards) Rules, 2015, as amended, read with the Securities and Exchange Board of India (Mutual Funds) Regulations, 1996, as amended ("the SEBI Regulations"):

(a) in the case of the Balance Sheet, of the state of affairs of the Scheme as at March 31, 2026;

(b) in the case of the Revenue Account, of the surplus/deficit for the year/period ended on that date;

(c) in the case of the Cash Flow Statement, of the cash flows for the year/period ended on that date; and

(d) in the case of Statement of changes in Net assets, of the changes in net assets attributable to the unit holders of the respective scheme for the year/period ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs) issued by the Institute of Chartered Accountants of India ("the ICAI"). Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Scheme in accordance with the 'Code of Ethics' issued by the ICAI together with the ethical requirements that are relevant to our audit of the financial statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements for the financial year/period ended March 31, 2026. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying financial statements.

Key audit matters	**How our audit addressed the key audit matter**
Information Technology systems and controls	
As a Mutual Fund, the reliability of Information Technology ('IT') systems plays a key role in the business operations. Since large volume of transactions are processed, the IT controls are required to ensure that systems process data as expected and that changes are made in an appropriate manner. The IT infrastructure is critical for smooth functioning of the Fund's business operations as well as for timely and accurate financial accounting and reporting. Due to the pervasive nature and complexity of the IT environment and large volume of transactions we have considered IT systems and controls as a key audit matter.	Our audit procedures on the IT infrastructure and applications relevant to financial reporting of the Scheme included the following: • We assessed the information systems used by the Fund for: (i) IT General Controls (ITGC) and (ii) Application controls; • We obtained an understanding of the process, evaluated the design of IT systems and tested the operating effectiveness of the controls by also engaging IT specialists; • We obtained and assessed independent assurance reports for the relevant controls at the third-party administrator and considered whether there was any impact on our audit; • Performed tests of controls (including other compensatory controls wherever applicable) on the IT application controls and IT dependent manual controls in the system; and • Tested the design and operating effectiveness of compensating controls in case deficiencies were identified, and where necessary, extended the scope of our substantive audit procedures.
Existence and Valuation of investments (as described in note 2 of the financial statements)	

Key audit matters	How our audit addressed the key audit matter
The investments held by the Scheme as at March 31, 2026 mainly comprised of listed equity shares, investments in gold bullion and investments in silver bullion. There is a risk on existence of investments and that the fair value of investments not determined appropriately. Accordingly, the existence and valuation of investments is considered as a key audit matter.	Our audit procedures in relation to existence and valuation of investments included the following: • assessed the design and implementation of controls over existence and valuation of investments; • on a sample basis, tested the key controls on existence and valuation of Investments; • traced the existence of investments held by the Scheme from the confirmation provided by the Custodian with the holding as per the books of account as at March 31, 2026; • On a sample basis, tested the valuation of investments as per the investment valuation policy and in accordance with the SEBI Regulations; and • Assessed that the disclosures in the financial statements are in accordance with the SEBI Regulations.

Information Other than the Financial Statements and Auditor's Report Thereon

The Board of Directors of Kotak Mahindra Asset Management Company Limited ("the AMC") and Kotak Mahindra Trustee Company Limited ("the Trustees") (collectively, referred to as "Those Charged with Governance") are responsible for the other information. The other information comprises the information included in the Trustee report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of management and Those Charged With Governance for the Financial Statements

Those Charged with Governance are responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance, cash flows and changes in net assets attributable to unitholders of the Scheme in accordance with IND AS and any addendum thereto, as notified by the Companies (Indian Accounting Standards) Rules, 2015, as amended, read with the SEBI Regulations, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the SEBI regulations for safeguarding of the assets of the Scheme and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent, the design, implementation and maintenance of adequate internal controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the management is responsible for assessing the Scheme's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management either intends to liquidate the Scheme or to cease operations, or has no realistic alternative but to do so.

Those Charged with Governance are also responsible for overseeing the Scheme's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.

- Conclude on the appropriateness of the management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Scheme's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Scheme to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with Those Charged with Governance, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide to the management with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with Those Charged with Governance, we determine those matters that were of most significance in the audit of the financial statements for the financial year ended March 31, 2026, and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

The financial statements of the Schemes for the year/period ended March 31, 2025, for the Schemes as enlisted below, included in these financial statements, have been audited by the predecessor auditor who expressed an unmodified opinion on those financial statements on June 27, 2025. Our opinion is not modified in respect of

this matter.

Report on Other Legal and Regulatory Requirements

1. As required by Regulation 55(4) and clause 5(ii)(2) of the Eleventh Schedule of the SEBI Regulations, we report that:

    a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
    b. The balance sheet gives a true and fair view of the Scheme, state of affairs of the Scheme for the accounting period to which the Balance Sheet relate;
    c. The revenue account gives a true and fair view of the Scheme, surplus or deficit in the Scheme for the accounting period to which the Revenue Account relate;
    d. The financial statements have been prepared in accordance with accounting policies and standards as specified in the Ninth Schedule of the SEBI Regulations; and
    e. The balance sheet and the revenue account are in agreement with the books of account of the Scheme.

2. On the basis of information and explanations given to us, the scheme does not have any non-traded securities as at March 31, 2026 and hence reporting requirement of Eighth Schedule of the SEBI Regulations is not applicable.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements of the Schemes give a true and fair view in accordance with Indian Accounting Standards ('IND AS') and any addendum thereto, as notified by the Companies (Indian Accounting Standards) Rules, 2015, as amended, read with the Securities and Exchange Board of India (Mutual Funds) Regulations, 1996, as amended ("the SEBI Regulations"):

(a) in the case of the Balance Sheet, of the state of affairs of the Scheme as at March 31, 2026;

(b) in the case of the Revenue Account, of the surplus/deficit for the year/period ended on that date;

(c) in the case of the Cash Flow Statement, of the cash flows for the year/period ended on that date; and

(d) in the case of Statement of changes in Net assets, of the changes in net assets attributable to the unit holders of the respective scheme for the year/period ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs) issued by the Institute of Chartered Accountants of India ("the ICAI"). Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Scheme in accordance with the 'Code of Ethics' issued by the ICAI together with the ethical requirements that are relevant to our audit of the financial statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Information Other than the Financial Statements and Auditor's Report Thereon

The Board of Directors of Kotak Mahindra Asset Management Company Limited("the AMC") and Kotak Mahindra Trustee Company Limited ("the Trustees") (collectively, referred to as Those Charged with Governance) are responsible for the other information. The other information comprises the information included in the Trustee report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of management and Those Charged With Governance for the Financial Statements

Those charged with governance are responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance, cash flows and changes in net assets attributable to unitholders of the Scheme in accordance with IND AS and any addendum thereto, as notified by the Companies (Indian Accounting Standards) Rules, 2015, as amended, read with the SEBI Regulations, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the SEBI regulations for safeguarding of the assets of the Scheme and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent, the design, implementation and maintenance of adequate internal controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the management is responsible for assessing the Scheme's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management either intends to liquidate the Scheme or to cease operations, or has no realistic alternative but to do so.

Those Charged with Governance are also responsible for overseeing the Scheme's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected

to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.

- Conclude on the appropriateness of the management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Scheme's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Scheme to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Those Charged with Governance, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide to the management with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matter

The financial statements of the Schemes for the year/period ended March 31, 2025, for the Schemes as enlisted below, included in these financial statements, have been audited by the predecessor auditor who expressed an unmodified opinion on those financial statements on June 27, 2025. Our opinion is not modified in respect of this matter.

Report on Other Legal and Regulatory Requirements

1. As required by Regulation 55(4) and clause 5(ii)(2) of the Eleventh Schedule of the SEBI Regulations, we report that:

    a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;

    b. The balance sheet gives a true and fair view of the Scheme, state of affairs of the Scheme for the accounting period to which the Balance Sheet relate;

    c. The revenue account gives a true and fair view of the Scheme, surplus or deficit in the Scheme for the accounting period to which the Revenue Account relate;

    d. The financial statements have been prepared in accordance with accounting policies and standards as specified in the Ninth Schedule of the SEBI Regulations; and

    e. The balance sheet and the revenue account are in agreement with the books of account of the Scheme.

2. On the basis of information and explanations given to us, the scheme does not have any non-traded securities as at March 31, 2026 and hence reporting requirement of Eighth Schedule of the SEBI Regulations is not applicable.

NSI	Kotak Nifty Smallcap 250 Index Fund	Index Funds	An open-ended scheme replicating/tracking the Nifty Smallcap 250 Index.	January 27, 2025	The investment objective of the scheme is to provide returns that, before expenses, corresponding to the total returns of the securities as represented by the underlying index, subject to tracking errors	Regular Growth, Direct IDCW (Payout and Reinvestment), Direct Growth, Direct IDCW (Payout and Reinvestment)
TAL	Kotak Transportation & Logistics Fund	Sectoral/Thematic Funds	An open-ended equity scheme following Transportation & Logistics theme	December 16, 2024	The investment objective of the scheme is to generate long-term capital appreciation from a portfolio that is invested predominantly in equity and equity related securities of companies engaged in transportation & logistics and related activities	Regular Growth, Direct IDCW (Payout and Reinvestment), Direct Growth, Direct IDCW (Payout and Reinvestment)
A50	Kotak Nifty Alpha 50 Index Fund	Index Funds	An open-ended scheme replicating/tracking the Nifty Alpha 50 Index.	August 19, 2025	The investment objective of the scheme is to replicate the composition of the Nifty Alpha 50Indexand to generate returns that are commensurate with the performance of the Nifty Alpha 50 Index, subject to tracking errors.	Regular Growth, Direct IDCW (Payout and Reinvestment), Direct Growth, Direct IDCW (Payout and Reinvestment)
CHE	Kotak Nifty Chemicals ETF	Other ETFs	An open-ended scheme replicating/tracking Nifty Chemicals Index	November 12, 2025	The investment objective of the scheme is to replicate the composition of the Nifty Chemicals Index and to generate returns that are commensurate with the performance of the Nifty Chemicals Index, subject to tracking errors.	IDCW (Payout)
DYF	Kotak Dividend Yield Fund	Dividend Yield Fund	An open-ended equity scheme predominantly investing in dividend yielding stocks	January 27, 2026	The investment objective of the scheme is to generate long-term capital appreciation and/or dividend distribution by investing predominantly in a well-diversified portfolio of equity and equity related instruments of dividend yielding companies.	Regular Growth, Direct IDCW (Payout and Reinvestment), Direct Growth, Direct IDCW (Payout and Reinvestment)
GSF	Kotak Gold Silver Passive FOF	Fund of Funds Scheme (Domestic)	An open-ended fund of fund scheme investing in units of Kotak Gold ETF and Kotak Silver ETF	October 28, 2025	The Investment Objective of the scheme is to generate long-term capital appreciation from a portfolio created by investing in units of Kotak Gold ETF & Kotak Silver ETF	Regular Growth, Direct IDCW (Payout and Reinvestment), Direct Growth, Direct IDCW (Payout and Reinvestment)
KAM	Kotak Active Momentum Fund	Sectoral/Thematic Funds	An open-ended equity scheme following momentum scheme	August 20, 2025	The scheme shall seek to generate long term capital appreciation by investing predominantly in equity and equity related securities selected based on momentum theme, following an in-house model i.e. enhanced earnings factor model.	Regular Growth, Direct IDCW (Payout and Reinvestment), Direct Growth, Direct IDCW (Payout and Reinvestment)
KEO	Kotak Energy Opportunities Fund	Sectoral/Thematic Funds	An open-ended equity scheme following Energy theme	April 25, 2025	The investment objective of the scheme is to generate longterm capital appreciation from a portfolio that is invested predominantly in equity and equity related securities of companies engaged in Energy and Energy related activities. However, there is no assurance that the objective of the scheme will be achieved.	Regular Growth, Direct IDCW (Payout and Reinvestment), Direct Growth, Direct IDCW (Payout and Reinvestment)
M3E	Kotak Nifty 200 Momentum 30 ETF	Other ETFs	Passive Investment in equity and equity related securities replicating the composition of Nifty 200 Momentum 30 Index, subject to tracking error.	October 10, 2025	Passive Investment in equity and equity related securities replicating the composition of Nifty 200 Momentum 30 Index, subject to tracking error.	IDCW (Payout)
M5I	Kotak Nifty 500 Momentum 50 Index Fund	Index Funds	An open-ended scheme replicating/tracking the Nifty500 Momentum 50 Index	December 11, 2025	The investment objective of the scheme is to provide returns that, before expenses, corresponds to the total returns of the securities as represented by the underlying index, subject to tracking errors.	Regular Growth, Direct IDCW (Payout and Reinvestment), Direct Growth, Direct IDCW (Payout and Reinvestment)
N10	Kotak Nifty Top 10 Equal Weight Index Fund	Index Funds	An open-ended scheme replicating/tracking the Nifty Top 10 Equal Weight Index	April 28, 2025	The investment objective of the scheme is to provide returns that, before expenses, corresponding to the total returns of the securities as represented by the underlying index, subject to tracking errors. However, there is no guarantee or assurance that the investment objective of the scheme will be achieved.	Regular Growth, Direct IDCW (Payout and Reinvestment), Direct Growth, Direct IDCW (Payout and Reinvestment)
NNE	Kotak Nifty Next 50 ETF	Other ETFs	An open ended scheme replicating/tracking the Nifty Next 50 ETF.	January 07, 2026	Passive Investment in equity and equity related securities replicating the composition of Nifty Next 50 Index, subject to tracking error.	IDCW (Payout)
Q3I	Kotak Nifty 200 Quality 30 Index Fund	Index Funds	An open-ended scheme replicating/tracking the Nifty 200 Quality 30 Index Fund	July 14, 2025	The investment objective of the scheme is to replicate the composition of theNifty 200 Quality 30Index and to generate returns that are commensurate with the performance of the Nifty 200 Quality 30 Index, subject to tracking errors.	Regular Growth, Direct IDCW (Payout and Reinvestment), Direct Growth, Direct IDCW (Payout and Reinvestment)
Q3T	Kotak Nifty 200 Quality 30 ETF	Other ETFs	An open-ended scheme replicating/tracking Nifty200 Quality 30 Index	July 14, 2025	The investment objective of the scheme is to replicate the composition of the Nifty200 Quality 30 Index and to generate returns that are commensurate with the performance of the Nifty200 Quality 30 Index, subject to tracking errors.	IDCW (Payout)

Kotak Mahindra Mutual Fund

Kotak Large Cap Fund (Erstwhile Kotak Bluechip Fund), Kotak Aggressive Hybrid Fund (Erstwhile Kotak Equity Hybrid Fund), Kotak Multi Asset Omni FOF (Erstwhile Kotak Multi Asset Allocator Fund of Fund - Dynamic), Kotak Large & Midcap Fund (Erstwhile Kotak Equity Opportunities Fund), Kotak Small Cap Fund, Kotak Contra Fund (Erstwhile Kotak India EQ Contra Fund), Kotak Arbitrage Fund (Erstwhile Kotak Equity Arbitrage Fund), Kotak ELSS Tax Saver Fund, Kotak Midcap Fund (Erstwhile Kotak Emerging Equity Fund), Kotak Global Emerging Market Overseas Equity Omni FOF (Erstwhile Kotak Global Emerging Market Fund), Kotak Infrastructure and Economic Reform Fund, Kotak Flexicap Fund, Kotak Gold Fund, Kotak Equity Savings Fund, Kotak Balanced Advantage Fund, Kotak Focused Fund (Erstwhile Kotak Focused Equity Fund), Kotak Pioneer Fund, Kotak ESG Exclusionary Strategy Fund, Kotak International REIT Overseas Equity Omni FOF (Erstwhile Kotak International REIT FOF), , Kotak US Specific Equity Passive FOF (Erstwhile Kotak NASDAQ 100 Fund of Fund), Kotak Nifty Next 50 Index Fund, Kotak Nifty 50 Index Fund, Kotak Global Innovation Overseas Equity Omni FOF (Erstwhile Kotak Global Innovation Fund of Fund), Kotak Multicap Fund, Kotak Manufacture In India Fund, Kotak Business Cycle Fund, Kotak Banking and Financial Services Fund, Kotak Silver ETF Fund of Fund, Kotak Nifty Smallcap 50 Index Fund, Kotak Nifty 200 Momentum 30 Index Fund, Kotak Quant Fund, Kotak Nifty Financial Services Ex-Bank Index Fund, Kotak BSE Housing Index Fund, Kotak Multi Asset Allocation Fund, Kotak Consumption Fund, Kotak Healthcare Fund, Kotak Technology Fund, Kotak Gold ETF, Kotak Nifty PSU Bank ETF, Kotak BSE Sensex ETF, Kotak Nifty 50 ETF, Kotak Nifty Bank ETF, Kotak Nifty 50 Value 20 ETF, Kotak Nifty IT ETF, Kotak Nifty Alpha 50 ETF, Kotak Nifty Midcap 50 ETF, Kotak Nifty 100 Low Volatility 30 ETF, Kotak Nifty India Consumption ETF, Kotak Nifty MNC ETF, Kotak Silver ETF, Kotak BSE PSU Index Fund, Kotak Nifty 100 Low Volatility 30 Index Fund, Kotak Nifty Midcap 50 Index Fund, Kotak Special Opportunities Fund, Kotak Nifty India Tourism Index Fund, Kotak BSE Sensex Index Fund, Kotak MNC Fund, Kotak Nifty Midcap 150 Momentum 50 Index Fund, Kotak MSCI India ETF, Kotak Nifty 100 Equal Weight Index Fund, Kotak Nifty 50 Equal Weight Index Fund, Kotak Nifty Commodities Index Fund, Kotak Nifty 100 Equal Weight ETF, Kotak Nifty Midcap 150 ETF, Kotak Nifty Midcap 150 Index Fund, Kotak Nifty Smallcap 250 Index Fund, Kotak Transportation & Logistics Fund, Kotak Nifty Alpha 50 Index Fund, Kotak Nifty Chemicals ETF, Kotak Dividend Yield Fund, Kotak Gold Silver Passive FOF, Kotak Active Momentum Fund, Kotak Energy Opportunities Fund, Kotak Nifty 200 Momentum 30 ETF, Kotak Nifty 500 Momentum 50 Index Fund, Kotak Nifty Top 10 Equal Weight Index Fund, Kotak Nifty Next 50 ETF, Kotak Nifty 200 Quality 30 Index Fund, Kotak Nifty 200 Quality 30 ETF, Kotak Rural Opportunities Fund, Kotak Nifty200 Value 30 Index Fund, Kotak Services Fund, Kotak Multi Factor Passive FOF, Kotak Quality Overseas Equity Omni FOF

Notes forming part of the Balance Sheets as at March 31, 2026 and the Revenue Accounts for the year / period ended March 31, 2026

Note 20

Notes to the Financial Statements

Organisation

Kotak Mahindra Mutual Fund ("KMMF") has been established as a Trust in accordance with the Indian Trusts Act, 1882, and is sponsored by Kotak Mahindra Bank Limited ("KMBL"). Kotak Mahindra Trustee Company Limited ("KMTC"), a company incorporated under the Companies Act, 1956, is the Trustee to KMMF by the Trust Deed entered into between KMBL and KMTC.

Kotak Mahindra Asset Management Company Limited ("KMAMC"), a company incorporated under the Companies Act, 1956, is a wholly owned subsidiary of KMBL and has been appointed as the asset management company ("Investment Manager"). The key features of the Schemes presented in these financial statements are as under: -

Short Name	Scheme Name	Scheme Category	Type of Scheme	Allotment Date	Investment Criteria	Options Currently Offered
ROF	Kotak Rural Opportunities Fund	Sectoral/Thematic Funds	An open-ended equity scheme following Rural and allied theme	November 27, 2025	The investment objective of the scheme is to generate long-term capital appreciation from a portfolio that is invested predominantly in equity and equity related securities of companies engaged in Rural & allied theme	Regular Growth, Direct IDCW (Payout and Reinvestment), Direct Growth, Direct IDCW (Payout and Reinvestment)
V3I	Kotak Nifty200 Value 30 Index Fund	Index Funds	An open-ended scheme replicating/tracking the Nifty200 Value 30 Index	February 05, 2026	The investment objective of the scheme is to replicate the composition of the Nifty Alpha 50Indexand to generate returns that are commensurate with the performance of the Nifty Alpha 50 Index, subject to tracking errors.	Regular Growth, Direct IDCW (Payout and Reinvestment), Direct Growth, Direct IDCW (Payout and Reinvestment)
SRF	Kotak Services Fund	Sectoral/Thematic Funds	An open-ended equity scheme following services theme	February 25, 2026	The investment objective of the scheme is to provide long term capital appreciation from an actively managed portfolio of equity and equity related securities of companies belonging to the services industry.	Regular Growth, Direct IDCW (Payout and Reinvestment), Direct Growth, Direct IDCW (Payout and Reinvestment)
MFF	Kotak Multi Factor Passive FOF	Fund of Funds Scheme (Domestic)	An open-ended fund of fund scheme investing in units of factor-based equity ETFs	March 20, 2026	The investment objective of the scheme is to generate long-term capital appreciation from a portfolio created by investing in units of factor-based equity ETFs	Regular Growth, Direct IDCW (Payout and Reinvestment), Direct Growth, Direct IDCW (Payout and Reinvestment)
QOF	Kotak Quality Overseas Equity Omni FOF	Fund of funds investing overseas	An open ended fund of fund investing in units of overseas equity oriented mutual fund schemes based on Quality Theme and/or ETFs based on Quality Theme.	March 25, 2026	The Investment Objective of the scheme is to generate long-term capital appreciation by investing in units of overseas equity oriented mutual fund schemes based on Quality Theme and /or ETFs based on Quality Theme.	Regular Growth, Direct IDCW (Payout and Reinvestment), Direct Growth, Direct IDCW (Payout and Reinvestment)

-Growth - Under the Growth option, there will be no distribution of income and the return to investors will be only by way of capital gains.
-Income distribution cum capital withdrawal (IDCW) option - the IDCW option will be available Under two sub options – the Payout option and the Reinvestment Option.
The unit capital are redeemable at applicable NAV on any day for open ended schemes and on maturity in case of close ended schemes.There are no preferential rights attributable to any units.

2 ***Basis of preparation of Financial Statements***

Statement of compliance

The Securities & Exchange Board of India (SEBI) has made an amendment to Securities and Exchange Board of India (Mutual Funds) Regulations, 1996 (as amended) (the 'Regulations') vide notification dated 25 January 2022, which directs implementation of Indian Accounting Standards (Ind AS) for mutual funds from 01 April 2023. As per the amended regulation 50(1) of SEBI MF Regulations, the financial statements and accounts of the mutual fund schemes shall be prepared in accordance with Ind AS, as notified by the Companies (Indian Accounting Standards) Rules, 2015. Further, it states that in case there is any conflict between the requirements of Ind AS and Regulations and the guidelines issued thereunder, the requirements specified under the Regulations shall apply.

Kotak Mahindra Mutual fund ('Fund') has adopted Indian Accounting Standards ('Ind AS') and have prepared the Financial Statements in accordance with the recognition and measurement principles as per Indian Accounting Standards (Ind AS) read with Companies (Indian Accounting Standards) Rules, 2015 and the Ninth Schedule of the Regulations, and the presentation and disclosure requirements of the Eleventh Schedule of the Regulations and the accounting principles generally accepted in India. The Fund has adopted Ind AS with effect from 01 April 2023.

3 Presentation of financial statement

The financial statements of the **Schemes** are presented as per Guidelines on Accounting with respect to Indian Accounting Standards (IND AS) issued by SEBI as per circular "SEBI/HO/IMD-II/DOF8/P/CIR/2022/12 " dated February 04, 2022. The Statement of Cash Flows has been presented as per the requirements of Ind-AS 7 Statement of Cash Flows.

The Financial statements have been prepared on an accrual and going concern basis using historical cost, except for Financial assets at fair value through Profit & Loss which have been measured at fair value.

Financial assets and financial liabilities are generally reported gross in the balance sheet. They are only offset and reported net when, in addition to having an unconditional legally enforceable right to offset the recognised amounts without being contingent on a future event, the parties also intend to settle on a net basis in all of the following circumstances:
• The normal course of business
• The event of default
• The event of insolvency or bankruptcy of the Fund and/or its counterparties.

The Preparation of these Balance Sheets,Revenue Accounts & Cashflow Statements, where applicable, in a columnar form is not intended to indicate that they bear any relation to each other. They are independent and not comparable in any manner.

4 Accounting estimates and judgments

The preparation of the Schemes financial statements in accordance with Ind AS requires use of judgements, estimates and assumptions for some items, which might have an effect on their recognition and measurement in the Balance Sheet and Revenue Account. The actual amounts realized may differ from these estimates. The estimates and the underlying assumptions are reviewed on an ongoing basis.

(i) Recognition and measurement of provisions and contingencies

The recognition and measurement of other provisions are based on the assessment of the probability of an outflow of resources and on past experience and circumstances known at the reporting date. The actual outflow of resources at a future date may therefore, vary from the amount included in other provisions.

(ii) Assumptions and estimation uncertainties

Measurement of fair values
The fair value of financial instruments is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e. an exit price) regardless of whether that price is directly observable or estimated using another valuation technique. When the fair values of financial assets and financial liabilities recorded in the Standalone Balance Sheet cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, estimation is required in establishing fair values.
Based on the Business model assessment, investment are classified at Fair Value through Profit and Loss as per Ind AS 109.

(iii) Impairment & Expected Credit Loss (ECL) provision are determined using reasonable & supportable information available and as per the Writeoff policy mentioned in **Note 9.b**

5 New and amended standards adopted

The Ministry of Corporate Affairs vide notification dated 7 May 2025 and 13 August 2025 notified the Companies (Indian Accounting Standards) Amendment Rules, 2025 and Companies (Indian Accounting Standards) Second Amendment Rules, 2025, respectively, which amended certain accounting standards (see below), and are effective for annual reporting periods beginning on or after 1 April 2025:

• Supplier Finance Arrangements – Amendments to Ind AS 7 and Ind AS 107
• International Tax Reform – Pillar Two Model Rules – Amendments to Ind AS 12

The same is not applicable to the schemes.

6 ***Material Accounting Policies***

6.1 **Income recognition**
The Schemes maintain their books of account on an accrual basis as per accounting Policies and Standards specified in the Ninth Schedule of The Securities and Exchange Board of India (Mutual Funds) Regulations, 1996, (the "Regulation"), and amendments thereto, as applicable.

• In respect of all interest-bearing investments, income are accrued on a day to day basis as it is earned. Therefore, when such investments are purchased, interest paid for the period from the last interest due date upto the date of purchase are not treated as a cost of purchase but debited to interest accrued but not due account. Similarly interest received at the time of sale for the period from the last interest due date upto the date of sale are not treated as an addition to sale value but credited to interest accrued but not due account.

• For listed shares/Mutual Fund units, the dividend income earned by a Scheme is recognised on the date the shares/Mutual Fund units are quoted on an ex-dividend basis. For investments in shares/Mutual Fund units, which are not quoted on the stock exchanges, the dividend income is recognised on the date of declaration.

• Profit or loss on sale of investments is recognised on the trade date and is determined on the basis of the weighted average cost method.
• Gain / Loss on fair value changes:
The net change on account of gain / loss on fair value changes in the value of investments is determined separately for each category of investments. The change if any, between two balance sheet dates is recognized in the revenue account and thereafter the net gain, if any, is transferred to the unrealised appreciation reserve.

• Rights / Bonus entitlements are recognized as investments on the ex-rights date / ex-bonus date.

6.2 **Financial instruments**
A financial instrument is defined as any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Initial measurement

6.2.1 Financial assets –
Financial assets are recognised when the Fund becomes a party to the contractual provisions of the instruments.

All financial assets are recognised initially at fair value adjusted for incremental transaction costs that are directly attributable to the acquisition of the financial asset or issue of financial assets except for following :
Financial assets measured at FVTPL (Fair Value through Profit and Loss) which are recognised at fair value i.e. Transaction costs directly attributable to the acquisition of financial assets at FVTPL are recognised immediately in Revenue Account.

Classification and Subsequent measurement of financial assets –
For the purpose of subsequent measurement, financial assets are classified into three categories:

a. Financial assets carried at amortized cost.
b. Financial assets carried at FVTPL (Fair value through Profit & Loss).
c. Financial assets carried at FVTOCI (Fair Value through Other Comprehensive Income).

a. Financial assets carried at amortized cost - A financial instrument is measured at amortized cost if both the following conditions are met:

• The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
• Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

The Scheme financial assets include trade and other receivables, and other financial assets such as income receivable on investments, margin money, share application money, FD & TREPS etc. Receivables and other financial instruments are measured at amortized cost.

The fund has determined that it has 2 business model : - The business model assessment is one of the two steps to classify financial assets. An entity's business model reflects how it manages its financial assets in order to generate cash flows, its business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets or both. This assessment is performed on the basis of scenarios that the entity reasonably expects to occur.

1) Held-to-collect business model: This includes cash & cash equivalents and other financial assets except investments. these financial assets are held to collect contractual cash flow. and the cash flows are solely payment of principal and Interest ("SPPI")on the principal amount outstanding. The assessment of SPPI test is performed as below

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are SPPI, the Fund considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition.

In making this assessment, the Fund considers:
contingent events that would change the amount or timing of cash flows;
– leverage features;
– prepayment and extension features;
– terms that limit the Fund's claim to cash flows from specified assets (e.g. non-recourse features); and
– features that modify consideration of the time value of money (e.g. periodical reset of interest rates).

Once the financial asset meet the above criteria the respective financial assets are classified at amortised cost.

2) Other Business Model: This includes investments. These financial assets are managed, and their performance is evaluated, on a fair value basis and the investments are held with intention of trading. These financial assets are classified as financial assets at fair value through Profit/Loss.

In making an assessment of the objective of the business model in which a financial asset is held, the scheme considers all of the relevant information about how business is managed, including.

• the documented investment strategy and the execution of this strategy in practice. This includes whether the investment strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities, or expected cash outflows or realizing cash flows through the sale of the assets.
• how the performance of the portfolio is evaluated and reported to the Fund's management.
• the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed.
• how the investment manager is compensated: e.g., whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
• the frequency, volume, and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.
Further, In making an assessment of the objective of the business model in which a financial asset is held, the fund considers all of the relevant information about how business is managed

One business model that results in measurement at fair value through profit or loss is one in which an entity manages the financial assets with the objective of realising cash flows through the sale of the assets. The entity makes decisions based on the assets' fair values and manages the assets to realise those fair values.

A portfolio of financial assets that is managed and whose performance is evaluated on a fair value basis is neither held to collect contractual cash flows nor held both to collect contractual cash flows and to sell financial assets. The entity is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. For such portfolios, the collection of contractual cash flows is only incidental to achieving the business model's objective. Consequently, such portfolios of financial assets must be measured at fair value through profit or loss.

b. Financial Assets measured at Fair value through Profit & Loss

Financial Assets shall be classified at Financial Assets measured at Fair value through Profit & Loss when Financial Asset is.
• Held for Trading
• A debt instrument that does not qualify to be measured at amortized cost FVOCI.
• An equity investment which the entity has not elected to classify as FVOCI.

I. it eliminates or significantly reduces a measurement or recognition inconsistency (sometimes referred to as 'an accounting mismatch') that would otherwise arise from measuring assets or liabilities or recognising the gains and losses on them on different bases

II. a group of financial liabilities or financial assets and financial liabilities is managed, and its performance is evaluated on a fair value basis, in accordance with a documented risk management or investment strategy, and information about the group is provided internally on that basis to the entity's key management personnel.

All financial assets not classified as measured at amortised cost or FVOCI are measured at FVTPL. This includes all derivative financial assets unless designated as effective hedge instrument which are accounted as per hedge accounting requirements

The Fund has following type of financial assets which has been measured at FVTPL –
For the purposes of the financial statements, all investments are marked to market and carry investments in the balance sheet at market value. The realised gains or losses on sale or redemption of investment, as well as unrealised appreciation or depreciation are recognised in all financial statements through Revenue Accounts. However, since the unrealised gain arising out of appreciation on investments cannot be distributed, it is excluded when arriving at distributable income.

1. Investments – The Investments includes investment in Equity Shares, Preference shares, Debenture/bonds, Central/ State Government Securities, Treasury bills, Commercial papers, Certificate of Deposits, Strips, Units of Mutual Funds (Domestic and Overseas), Commodities, Foreign securities, ETFs (Domestic and Overseas), InVIT, REIT, PTC (Pass through Certificate), cash management Bills are held for trading and thus subsequently measured at Fair value through profit & Loss. Purchase and sale of Investments are accounted on the date of the transaction at their respective fair values.

2. Derivatives
The Fund enter into derivative transactions in equity/ index options and futures. "Derivative margin deposits" representing the margins towards equity derivative contracts entered into by the Fund are disclosed under "Other Financial Assets."

i. Options
• Premium paid on bought option contracts is debited to "equity option premium account" and recorded as an asset.
• When the option contracts are squared off before expiry, the difference between the premium paid and received on the squared off transactions is recognised in the revenue account. When the option contracts are exercised on or before expiry, the difference between the option settlement price as determined by the exchange and the premium is recognised in the revenue account. If more than one option contracts in respect of the same stock / index with the same strike price and expiry date to which the squared off / exercised contract pertains is outstanding at the time of square off / exercise of the contract, the weighted average method is followed for determining the gain or loss.

• Premium asset in respect of options not exercised / squared off as on expiry date is transferred to revenue account.
• All open future positions are valued at the futures settlement price as determined by the exchange where it is traded. All option positions are valued at the last traded price where it is traded. In case there is no traded price available then the option position is valued at fair value based on a theoretical price as derived by Black & Scholes option pricing formula.

ii. Futures

Futures contracts are marked to market daily at the futures settlement price as determined by the exchange. The variation margin calculated as the difference between the trade price or the previous day's settlement price, as the case may be, and the current day's settlement price is recorded as a receivable or payable.
When a contract is closed (squared off)/ settled (on expiry), the difference between the final settlement / square-off price and the contract price is recognised in the Revenue Account. If more than one futures contracts in respect of the same stock / index and expiry date, to which the squared off / settled contract pertains, is outstanding at the time of square off / settlement of the contract, the weighted average method is followed for determining the gain or loss.

As at the Balance Sheet date / date of determination, all open futures positions are valued at the futures settlement price as determined by the exchange where it is traded.. The unrealised appreciation / depreciation on all open positions are considered for determining the net asset value.

Derivatives are initially recognized at fair value at the date the contracts are entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain/ loss is recognised in Revenue Account immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in profit or loss depends on the nature of the hedging relationship and the nature of the hedged item.

c.Financial assets measured at fair value through other comprehensive income.

When the financial assets are held to collect contractual cash flows and selling the financial assets and contractual terms give rise to cash flows that are solely payments of principal and Interest on principal amount outstanding.

De-recognition of financial assets

A financial asset is de-recognised when:
• The rights to receive cash flows from the asset have expired, or
• The Fund have transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either
(a) the schemes have transferred substantially all the risks and rewards of the asset, or
(b) the Fund have neither transferred nor retained substantially all the risks and rewards of the asset but has transferred control of the asset.
The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Schemes has retained.
On derecognition of a financial asset, the difference between the carrying amount (measured at the date of derecognition) allocated to financial asset and the consideration received is recognized in the revenue account.

Reclassifications

Financial assets are not reclassified subsequent to their initial recognition unless the Fund were to change its business model for managing financial assets, in which case all affected financial assets would be reclassified on the first day of the first reporting period following the change in the business model.

Impairment of financial assets (other than investments) held under amortised cost
ECL are recognised for financial assets (other than investments) held under amortised cost.

Expected credit losses are measured through a loss allowance at an amount equal to:
i) The 12-months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date); or
ii) Full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument) to the extent of receivables from issuers.

When determining whether credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Schemes considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, including on historical experience and forward-looking information the Schemes continuously assesses whether there has been a significant increase in credit risk, or the asset has become credit impaired since initial recognition based on below criteria.
• Historical trend of collection from counterparty
• Schemes contractual rights with respect to recovery of dues from counterparty
• Credit rating of counterparty and any relevant information available in public domain
Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

The scheme applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the receivables, Cash & cash equivalents & Other financial assets which are measured at amortised cost.

-Receivables, the scheme applies 'simplified approach' which requires expected lifetime losses to be recognised from initial recognition of the receivables. The schemes have determined based on historical experience and expectations that the ECL on its receivables (apart from receivables from issuers) is insignificant and was not recorded. At every reporting date, these historical default rates are reviewed and changes in the forward-looking estimates are analysed.

The schemes have to also adhere to the provisions of below investment grade / default as prescribed by SEBI from time to time. Accordingly, A money market or debt security shall be classified as "Default" if the interest and / or principal amount has not been received, on the day such amount was due or when such security has been downgraded to "Default" grade by a CRA. In case of debt and money market securities classified as "below investment grade or default", provision is made for the income so accrued / to be accrued in the manner specified in SEBI guidelines. Such securities are valued as per the approved valuation policy.

-Cash and Cash Equivalents and Balances with Bank
The schemes hold cash and cash equivalents and other bank balances, the credit worthiness of such banks and financial institutions is evaluated by the management on an ongoing basis and is considered to be high and accordingly it carries low credit risk as they are settled in short term and there has been no significant increase in the risk of default since initial recognition and hence expected credit loss is immaterial

-Other Financial assets
Other financial assets include security interest receivable and other deposits which has low credit risk as they are settled in short term and there has been no significant increase in the risk of default since initial recognition hence expected credit loss is immaterial.

Thus, the schemes have not recognised any provision for expected credit loss apart from those mentioned above during the year ended 31 March 2026 as the credit rating and historical experience of downgrade & default in a way reflects reasonable and supportable information that is available without undue cost or effort at the reporting date.

6.2.2 Financial liabilities

A financial liability is a contractual obligation to deliver cash or another financial asset or to exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavorable to the Schemes.

Initial measurement
All financial liabilities are recognised initially at fair value adjusted for incremental transaction costs that are directly attributable to the financial liabilities except in the case of financial liabilities recorded at FVTPL where the transaction costs are charged to revenue account.

Classification and Subsequent measurement of financial liabilities

Financial liabilities are classified and measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, or it is a derivative (that does not meet hedge accounting requirements) or it is designated as such on initial recognition. Interest expense and foreign exchange gains and losses are recognised in revenue account. Any gain or loss on derecognition is also recognized in revenue account.

The funds have following financial liabilities -
(1) Derivative financial instruments payable - Derivative Financial Instruments payable is measured at Fair value through profit & loss.

(2) Borrowing - The Fund borrow to meet temporary liquidity needs for the purpose of reurchase, redemption of units or payment of dividend.

(3) Other Financial Liabilities - The Fund includes in this category payables and all other financial liabilities which are measured at amortized cost.

De-recognition of financial liabilities
A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the revenue account.

6.3 **Fair value measurement**

The Fund measures all the investments at fair value at each reporting date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability or, in the absence of a principal market, in the most advantageous market for the asset or liability.

SEBI has amended Regulation 47 and the Eighth Schedule relating to valuation of investments on February 21, 2012, to introduce overriding principles in the form of "Principles of Fair Valuation". The amended regulations require that mutual funds shall value their investments in accordance with principles of fair valuation so as to ensure fair treatment to all investors i.e., existing investors as well as investors seeking to subscribe or redeem units.

It further prescribes that the valuation shall be reflective of the realizable value of securities and shall be done in good faith and in a true and fair manner through appropriate valuation policies and procedures approved by the Board of the asset management Schemes

The amendment also states that in case of any conflict between the principles of fair valuation and valuation guidelines as per Eighth Schedule and circulars issued by SEBI, the Principles of Fair Valuation shall prevail.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 inputs – these inputs are quoted prices (unadjusted) in active markets for identical assets/liabilities that the entity can access at the measurement date. As a quoted price in an active market provides the most reliable evidence of Fair Value, it should be utilized to measure Fair Value whenever available. Common examples of Level 1 inputs include listed equity securities and open ended mutual funds with daily published net asset values.

Level 2 inputs – these inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include (i) quoted prices for similar assets or liabilities in active markets; (ii) quoted prices for identical/similar assets or liabilities in markets that are not active; (iii) inputs other than quoted prices that are observable for the asset or liability, such as interest rates, yield curves, and implied volatilities; and (iv) market-corroborated inputs.

Level 3 inputs – these inputs are unobservable inputs for assets/liabilities. Unobservable inputs are used to measure Fair Value to the extent that relevant observable inputs are not available. The unobservable inputs should reflect the assumptions that market participants would use when pricing the asset or liability, including assumptions about risk. An entity should develop unobservable inputs using the best information available. In developing unobservable inputs, an entity may begin with its own data, but it should adjust the data to ensure consistency with a market participant view point. Common examples of Level 3 inputs include management prepared business forecasts utilized in a discounted cash flow model.

The objective of valuation techniques is to arrive at a fair value measurement that reflects the price that would be received to sell the asset or paid to transfer the liability in orderly transactions between market participants at the measurement date.

For assets and liabilities that are recognized in the financial statements on a recurring basis, Schemes determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization at the end of each reporting period or each case.

6.3.1 Portfolio Valuation

Investments are stated at market/fair value at the Balance Sheet date/date of determination. In valuing the Scheme's investments:-

I. Valuation of Equity and Equity related securities		
Category	**Traded**	**Non-Traded/Thinly Traded/Privately placed / Unlisted equity**
Equity Shares / Preference Shares / Warrants / Convertible Debentures	These securities are valued at the last quoted closing price on the National Stock Exchange of India Limited (NSE) except for schemes replicating / tracking BSE Indices, wherein the equity securities are valued at the last quoted closing price of Bombay Stock Exchange Ltd. (BSE). However, if these securities are not listed / traded on NSE, as the case may be, the securities are valued at the last quoted closing price on the exchange where it is principally traded. When these securities are not traded on any stock exchange on a particular valuation day, the value at which it was traded on NSE or any other stock exchange as the case may be, on the earliest previous day is used, provided that such day is not more than thirty days prior to the valuation date.	Non-traded / thinly traded / privately placed / unlisted equity and preference shares including those not traded within thirty days are valued at fair value as per procedures determined by the Investment Committee.
Non traded Rights Entitlement	Until they are traded, the value of "rights" shares are calculated as the difference between the ex-rights price and the rights offer price subject to illiquidity discount as decided by the Investment Committee on a case to case basis. Where the rights are not treated pari passu with the existing shares, suitable adjustments shall be made to the value of the rights. Where it is decided not to subscribe for the rights but to renounce them and renunciations are being traded, the rights can be valued at the renunciation value. In case the rights offer price is greater than the ex-rights price, the value of the rights share shall be taken as zero.	

I. Valuation of Equity and Equity related securities	
Category	
Equity and Equity related securities awaiting listing (Merger, Demerger,	In respect of special circumstances, such as Merger, De-Merger, Split, Hiving off, etc., fair value principles are adopted. Such fair valuation principles could be the difference between the price as existed on the date previous to the ex-date and the special pre-opening session (SPOS) price (wherever such SPOS session is conducted) / and the exdate price of the existing equity shares.
Initial Public Offering ('IPO') application	Prior to allotment – at Bid Price Post allotment but awaiting listing – at allotment price Post listed – at last quoted closing price as per "Traded Equity Shares / Preference Shares / Warrants / Convertible Debentures"
Futures and Options (both exchange traded equity and interest rate derivatives)	All open future positions are valued at the futures settlement price as determined by the exchange where it is traded. All option positions are valued at the last traded price where it is traded. In case there is no traded price available then the option position is valued at fair value based on a theoretical price as derived by Black & Scholes option pricing formula.
Foreign Securities	Investments in securities outside India are valued at the closing price on the stock exchange on which it is listed or at the last available traded price on the date of valuation. Investment in units of overseas mutual funds is valued based on the net asset value of the overseas mutual fund on the date of valuation. On valuation date, all foreign securities shall be valued in Indian Rupees at the last available RBI reference rate.
Non-traded Convertible debentures	In respect of convertible debentures and bonds, the non- convertible and convertible components shall be valued separately. The non-convertible component should be valued on the same basis as would be applicable to a debt instrument. The convertible component should be valued on the same basis as would be applicable to an equity instrument. If after conversion the resultant equity instrument would be traded pari passu with an existing instrument which is traded, the value of the latter instrument can be adopted after an appropriate discount for the non-tradability of the instrument during the period preceding the conversion. While valuing such instruments, the fact whether the conversion is optional should also be factored in.
Non-traded warrants	In respect of warrants to subscribe for shares attached to instruments, the warrants are valued at the value of the share which would be obtained on exercise of the warrant as reduced by the amount which would be payable on exercise of the warrant. Appropriate discount shall be deducted to account for the period, which must elapse before the warrant can be exercised.

II. Valuation of Debt and Money Market (Including Sovereign securities) Instruments	
Category	
Money Market and Debt Securities (including floating rate securities)	**Money Market and Debt Securities** All money market and debt securities including floating rate securities and bills purchased under rediscounting scheme are valued at average of security level prices obtained from valuation agencies, currently CRISIL and ICRA. In case security level prices given by valuation agencies are not available for a new security (which is currently not held by any Mutual Fund), then such security shall be valued at purchase yield on the date of allotment / purchase. **Government Securities (including T-bills, Strips)** Irrespective of the residual maturity, Government Securities (including T-bills, Strips) are valued on the basis of security level prices obtained from valuation agencies.
III. Others	
Bank Deposits and Overnight Repos (including Overnight Tri Party Repo (TREPS))	Bank Deposits and Overnight Repos (including Overnight Tri Party Repo (TREPS)) shall be valued at cost plus accrual basis.
Repo (including Tri Party Repo (TREPS)) other than Overnight Repos	All repo transactions (including Tri Party Repo (TREPS)), except for overnight repos shall be valued at average of security level prices obtained from valuation agencies, currently CRISIL and ICRA. In case security level prices given by valuation agencies are not available for a new Repo (which is currently not held by any Mutual Fund), then such Repo may be valued at purchase yield on the date of placement.
Real Estate Investment Trust ('ReITs') & Infrastructure Investment Trust ('InvITs')	**Allotted but awaiting listing**- At allotment price **Listed / Traded / Non Traded** ReIT and InvIT are valued at the last quoted closing price at the principal stock exchange. In case ReIT / InvIT are not traded on the principal stock exchange on a particular date, the closing price at which it is traded on any other stock exchange will be considered. If the traded price is not available, then valuation shall be as per the direction of Investment Committee. Investments in ReIT / InvIT shall be valued as follows: i) In case ReIT / InvIT is not being tradedon any given day, last traded price would be taken as fair market value provided such last trade is not beyond previous 30 days. ii) In case ReIT / InvIT is not being traded for previous 30 days, latest NAV declared by investment manager of ReIT / InvIT trust shall deemed to be the fair price. iii) In case investment committee can establish a case that NAV as published by investment manager of ReIT / InvIT is not representative of fair value than at a price suggested to be fair value.
Mutual Fund Units	Investments in unlisted mutual fund schemes are valued based on the last declared net asset value of the schemes available on AMFI website. In case of Investments in Listed mutual fund units, valuation are at the last quoted closing price at the principal stock exchange. if the traded price is not available, last declared NAV of the schemes available on AMFI site can be considered for valuation.
Gold / Silver	Investments in gold are valued at the price arrived at by converting the price of gold quoted on the London Bullion Market Association [LBMA], in US Dollars into Indian Rupees at the exchange rate published by the Reserve Bank of India as increased by custom duty for import of gold , adjusted the premium / discount* and other charges as applicable. w.e.f. March 27,2023, instead of taking quotes from market dealers, MCX spot price would be considered to determine a suitable notional premium / discount to arrive at the fair valuation reflecting the domestic prices of Silver and Gold. If on any day, LBMA price is not available due to holiday, the last published LBMA price will be considered for valuation by applying last available RBI reference rate.
Interest Rate Swaps	Interest Rate Swap (IRS) contract is recognised on the trade date and income on IRS contract is measured at net basis i.e. difference between the interest on Fixed leg and Floating leg of IRS contract. Mark to market gain / (loss) on IRS contract is recognised as the difference between notional value and fair value of IRS contract as provided by the CRA.
Securities lending and borrowing Mechanism (SLBM)	Lending fees (net of brokerage) on the security lending is recognised on the basis of amortisation over the period of lending contract of security.
Units of Corporate Debt Market Development Fund (CDMDF)	Investments in units of CDMDF shall be valued based on the last declared net asset value as disclosed on the website of the CDMDF Fund.
OTC Derivatives and Market Linked Debentures	OTC Derivatives and Market Linked Debentures are valued based on prices received from valuation agencies.
Exchange Traded Commodity Derivatives (ETCDs)	Exchange Traded Commodity Derivatives (ETCDs) shall be valued at the settlement price where such ETCD Contracts are listed. In case necessary details to value ETCDs are not available, the prices will be determined based on the available information which shall be approved by Investment Committee.
Physical Commodities other than Gold & Silver	Physical stocks / commodities received from the exchange accredited warehouse in the location (as notified and determined by the exchanges) will be valued based on latest spot market price of the respective location as published by the respective commodity exchanges. If on any day the spot market prices as above are not available, then the prices of immediately preceding day will be considered for the purpose of valuation of such commodity. If the prices as per above do not represent fair value, the Investment Committee will determine the price based on the available information, in order to ensure fair valuation.
Securities which are rated below investment grade or default	Securities which are rated below investment grade or default are valued at the price provided by AMFI appointed valuation agencies, currently CRISIL and ICRA. Where the traded price is lower than such computed price, such traded price shall be considered for the purpose of valuation. Any deviation from the indicative haircuts and/or the valuation price for money market and debt securities rated below investment grade provided by the valuation agencies shall be as decided by the Investment Committee.

6.4 **Foreign currency transactions**

Initial recognition

Transactions in foreign currencies are recognised at the prevailing exchange rates between the reporting currency and a foreign currency on the transaction date.

Subsequent measurement

Transactions in foreign currencies are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognised in Revenue account.

The books and records of the Fund are maintained in Indian rupees. Amounts denominated in or expected to settle in foreign currencies are translated into Indian rupees including
Market value of investments, other assets and liabilities at the closing rate of exchange on the Balance Sheet date / valuation date.

Net realised foreign exchange gains and losses arise from sales of foreign currency denominated securities, currency gains or losses realised between trade and settlement dates of foreign currency denominated securities transactions and the difference between the recorded amounts of foreign currency denominated dividends, interest and expenses recorded in the Fund's books and the Indian rupee equivalent amounts actually received or paid.
Net unrealised foreign exchange gains and losses arising from changes in value of assets and liabilities denominated in foreign currency resulting from changes in foreign exchange rate are included in net unrealised appreciation or depreciation in value of investments and foreign currency denominated assets and liabilities.

6.5 **Expenses**

• All expenses are accounted for on accrual basis.
• Brokerage and transaction cost incurred for the purpose of execution of trades are charged to the Fund as provided under Regulation 52 (6A) (a) upto 12 bps and 5 bps for cash market transactions and derivatives transactions, respectively. Any payment towards brokerage and transaction costs, over and above the said 12 bps and 5 bps for cash market transactions and derivatives transactions respectively are charged to the scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under regulation.
• Pursuant to SEBI Circular No. SEBI/HO/IMD/DF2/CIR/P/2018/137 dated October 22, 2018, all the Scheme related expenses including commission paid to distributors, by whatever name called and in whatever manner paid, are borne and paid by the Fund within regulatory limits mandated under regulation 52 of the SEBI (MUTUAL FUNDS) Regulations, 1996

• Investment Management Fees - The Schemes have paid / provided for investment management fees payable to KMAMC for managing the Scheme at an average annual rate as a percentage of the average daily net assets (excluding the Investment made in units by KMAMC, Investment made in units by schemes of KMAMC other than Fund of Fund schemes, Fixed Deposit placed by the scheme and interest accrued on the same) recorded by the respective Scheme.

• Trusteeship Fees - In accordance with the Trust Deed dated May 20, 1996 between KMBL and KMTC and amendments thereto, the Trustee is entitled to annual remuneration, being the higher of Rs. 15 Lakhs or such percentage of the average daily net assets of KMMF as specified in the Trust Deed.

• Custodian Fees - Standard Chartered Bank provides custodial services for equity portfolios, The Deutsche Bank AG provides custodial services for non-equity portfolios of the schemes of KMMF, for which they receive custody fees including transaction and registration charges

• Interest on Borrowing cost - The Borrowing cost for meeting redemptions and dividend has been charged to schemes (to the extent of portfolio yield of day prior to borrowing) as an expense.

6.6 **Net Asset Value for Growth / IDCW (Income distribution cum capital withdrawal) Options of a scheme**

The net asset value for a scheme is determined separately for units issued under the Growth and IDCW Option, where applicable. For reporting the net asset value of the Growth and IDCW options, daily income earned, including realised and unrealised gain or loss in the value of investments and expenses incurred by the Schemes are allocated to the options in proportion to the value of the net assets.

6.7 **Unit Premium Reserve**

Upon issue and redemption of units, the net premium or discount to the face value of units is adjusted against the unit premium reserve of the respective Scheme, after an appropriate portion of the issue proceeds and redemption payout (for open-ended schemes) is credited or debited respectively to the income equalisation reserve.

6.8 **Unrealised Appreciation Reserve**

For investments and derivatives, the change in net unrealised depreciation, if any, between two balance sheet dates / date of determination is accounted for through the Revenue Account.The net change in unrealised appreciation, if any, between two balance sheet dates / date of determination is accounted through the Revenue Account and thereafter transferred from the Revenue Account to the unrealised appreciation reserve.Net unrealised appreciation is reduced from distributable income at the time of distribution.

6.9 **Revenue Reserve**

Revenue Reserve represents surplus in Revenue account except Unrealised Appreciation amount.

6.10 **Income Equalisation Reserve**

Income equalisation reserve is maintained (for open-ended schemes) by crediting (or debiting) the income equalisation reserve account in respect of issue of units (or redemption of units) by an appropriate amount, which represents the distributable income at the time of issue (or redemption). The balance in the income equalisation reserve account is transferred to the Revenue Account at the end of the year / period.

6.11 **Cash and cash equivalents**

Cash and cash equivalents include cash on hand, reverse repurchase transactions/TREPS that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

7 Other Accounting Policies

7.1 **Provisions & Contingent liabilty**

Provisions

A provision is recognized when the 'Scheme' has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made.

Contingent Liability

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the fund. A present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or reliable estimate of the amount cannot be made, is termed and disclosed as contingent liability.

7.2 **Offsetting of financial instruments**

Financial assets and financial liabilities are offset, and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.
The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the group or the counterparty.

7.3 **Load Charges**

As mandated vide circular CIR /IMD/DF/4/2011, of the load balance as of July 31, 2009, not more than one third of the said balance can be utilized in any financial year.

As mandated vide circular CIR /IMD/DF/21/2012 dated September 13,2012 exit load collected net of GST ,if any, is credited to scheme w.e.f. October 01,2012.
No Entry load is charged to investors at the time of entry into the fund.

7.4 **Taxation**

No provision for income tax has been made since the income of the scheme is exempt under Section 10 (23D) of the Income Tax Act, 1961

7.5 **Functional and presentational currency**

The financial statements of the fund is presented in Indian Rupees (₹) which is also functional currency of the Fund and the currency of the primary economic environment in which the Fund operates. All amounts are rounded off to the nearest lakhs, unless otherwise indicated.

7.6 Other Income includes Rebate, exit load income (net of GST), SLBM Lending fees (net of brokerage), Interest received on account of Delayed RTGS and Miscellaneous income (If any).

8 FAIR VALUE MEASUREMENT

(a) The following tables presents the carrying value and fair value of each category of financial assets and liabilities :

Refer Table 1

(b) Fair value hierarchy

The Scheme measures its investments in financial instruments, such as Shares, Future/Option, Interest Rate Swap, Commodities, Debentures/ Bond, Certificates of deposit, Domestic / Overseas Mutual funds Commercial paper, Treasury bills, Cash management bills, ReITs,InVITs, Foreign securities, State Government Securities and Central Government Securities at fair value at each reporting date.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

i) Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
ii) Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
iii) Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

Assessing the significance of a particular input requires judgement, considering factors specific to the asset or liability.

Accordingly, in line with the valuation policy stated earlier the Financial instrument are classified as under;

Category	Traded	Pricing Source
Equity Shares / Preference Shares / Warrants / Equity related securities awaiting listing		
-Traded	Level 1	Last quoted closing price on the Stock Exchange
-Non-Traded	Level 3	Valued in accordance with the fair valuation norms prescribed in the SEBI guidelines.
Corporate Action- Merger, Demerger and Rights Entitlement	Level 2	Weighted average of prices provided by CRISIL and ICRA, which is valued in accordance with the fair valuation norms prescribed in the SEBI guidelines
Real Estate Investment Trust ('ReITs') & Infrastructure Investment Trust ('InvITs')	Level 1	Last quoted closing price on the Stock Exchange
Futures, Options (both exchange traded equity and interest rate derivatives) and Exchange Traded Commodity Derivatives (ETCDs)	Level 1	Settlement price on the stock exchange
Money Market, Debt Securities (including floating rate securities) and Repo (including Tri Party Repo (TREPS)) other than Overnight Repos	Level 2	Weighted average of prices provided by CRISIL and ICRA, which is valued in accordance with the fair valuation norms prescribed in the SEBI guidelines
AIF, Mutual Fund Units (Including Overseas)	Level 1	NAV published on Association of Mutual Fund of India (AMFI) / respective fund house.
Gold / Silver	Level 1	Price arrived at by converting the price of gold quoted on the London Bullion Market Association [LBMA] adjusted with suitable notional premium / discount.
Interest Rate Swaps (OTC Derivatives)	Level 2	Weighted average of prices provided by CRISIL and ICRA

8.(A) The following table shows financial instruments recognised at fair value as at March 31, 2026:
Refer Table 2

8.(B) Fair value measurement using significant unobservable Inputs

Refer Table 3

8.(C) Fair value of financial assets and liabilities measured at amortised cost:
Refer Table 4

9 Financial risk Management and associated Risks

The funds strategy on the management of investment risk is driven by the respective funds investment objective. Investment risk management involves both controlling risk by limiting certain risk exposures and the size & probability of losses, as well as using a number of active investment techniques that seek to align the fund's investments with its investment objectives, its risk profile, and the portfolio manager's investment convictions.

Risk control focuses on placing limits on a fund's investment positions and concentrations. These limits include the investment restrictions mentioned in the fund's SID as well as limits and restrictions imposed by the investment committee and the risk management committee (RMC) within the regulatory limits. Risk control activities includes reviewing portfolio concentrations and adjusting portfolio holdings accordingly, monitoring and limiting credit exposure from issuers of portfolio securities and from counterparties; and ensuring that a fund is managed in compliance with the Scheme Information Document and the regulatory investment restrictions.

Additionally, there are documented Investment Manuals which lay various internal norms and fund managers are expected to operate within the boundaries as set therein.

Risk management policies and systems are reviewed regularly by KMAMC (Kotak Mahindra Asset Management Company Limited) to reflect changes in market conditions and the Fund's activities. The RMC of KMAMC and KMTC (Kotak Mahindra Trustee Company Limited) monitors compliance with the Fund's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Fund.

The Fund's investing activities expose it to various types of risks that are associated with the different financial instruments and jurisdictions in which it invests. Some of the key financial risks to which the Fund is exposed to are Market Risk, Credit Risk and Liquidity Risk.

Exposure to market risk, credit risk, liquidity and concentration risk arises in the normal course of the Fund's business and these risks are mitigated by the Fund's financial risk management policies and practices.

Risk	Exposure arising from	Measurement
Credit Risk	Cash and Cash Equivalents (excl. Cash on hand), other bank balances, receivables, other financial assets	Credit Rating and Expected credit loss
Liquidity Risk	Financial Liabilities and Financial Assets	Cash Flow forecast
Market Risk - Interest rate	Change in interest rate of borrowings and debt securities	Sensitivity Analysis
Market Risk - Price risk	Investments in Equity securities	Sensitivity Analysis
Market Risk - Foreign currency risk	Financial assets and Financial liabilties having exposure to foreign currency risk	Sensitivity Analysis

a) Market Risk

Market risk is the risk of possible economic loss arising from adverse changes in market risk factors such as interest/price rates, foreign exchange rates.Market Risk is managed through Board Approved Risk Management Policy, Investment Manuals and various other policies.
The funds market risk is managed on a daily basis by the scheme Fund Managers in accordance with policies & procedures. The Investment Committee of KMAMC reviews the Market Risk aspect of the schemes in its periodic meetings.

i.) **Price Risk**
Price risk is the risk that value of the instrument will fluctuate as a result of changes in market prices, whether casused by factors specific to an individual investment,its issuer or all factors affecting all instruments traded in the market. As majority of the schemes financial instruments are carried at fair value changes recognised in revenue account, all changes in market conditions will directly affect the Investment.

Price risk is mitigated by the Fund Managers by constructiong a diversified portfolio of instruments traded. There are various concentration limits at issuer, group, sector, stock count adhered to by the Fund Managers which helps diversifying the exposure.
To moderate price risk, Kotak Mahindra Mutual Fund employs a disciplined approach to stock selection and investment where detailed research is concluded before any investments and thereafter periodical review is conducted to ensure that investments continues to be in the best interest of the investors. Various factors including the macroeconomic landscape, position size, hedging strategies, derivatives usage, exposure to key thematic risks, and the overall financial position exposure are considered while monitoring price risk.

Refer Table 5 - Scheme exposure to price risk

ii.) **Currency risk / Foreign exchange risk**

Schemes with investments in overseas securities are susceptible to currency risk. The risk arises when the fund engages in transactions denominated in foreign currencies, exposing it to fluctuations in exchange rates. Specifically, currency risk emerges as the value of future transactions, recognized monetary assets, and liabilities denominated in foreign currencies fluctuates due to changes in foreign exchange rates. As the scheme does not hedge any currency risk, the scheme's overseas investments continues to be exposed to the fluctuations in exchange rates.

Refer Table 6

iii.) **Interest rate Risk**
Interest rate risk is the possibility of a loss that could result from a change in interest rates. The values of investments will appreciate/depreciate if the interest rates fall/rise. Generally, when interest rates rises, prices of fixed income securities fall and when interest rates drop, the prices generally increase.

The interest rate movement is considered as a steep factor in outlier events such as sudden tightening of liquidity conditions or steep increase in overnight rates. The change in a fixed income securities price given a change in interest rates is known as its duration. Duration for the scheme is guided by respective scheme objectives, scheme information document, stress testing policy etc. Scheme wise duration are reviewed by Investment Committee on a regular basis. The Scheme's financial assets are Corporate Bond, Certificates of deposit, Commercial paper, State Government Securities and Central Government Securities, which are interest bearing.

As at March 31, 2026, if prevailing interest rates had risen or declined by 0.5%, assuming a parallel shift in the yield curve with all other variables held constant, **Refer Table 7** for the impact on Scheme's net assets due to decreased or increased. In practice, actual results may differ from this sensitivity analysis and the difference could be material.

Refer Table 8 analyses the Scheme's interest rate risk exposure.

b.) Credit Risk

Credit risk is the risk that the issuer of a debenture/ bond or a money market instrument may default on interest &/or principal payment obligations. This risk arises due to any uncertainty in issuer's ability or willingness to meet its contractual obligations. Even when there is no default, the price of a security may change with expected changes in the credit rating of the issuer.

The AMC has appointed an Investment Committee which oversees matters relating to credit assessments and approvals. The Investment Committee comprises of Senior Executives of the Company and Directors of AMC. It sets the framework for credit risk assessment and monitoring, sectoral exposure caps, sensitive sector limits, fund level limits norms for investment decision making and oversees the investment risk management function. Investment policy as approved by the Boards of AMC and Trustees which emphasizes on credit quality, liquidity and duration management lays down the process to be followed by the debt fund management team while making investments. Detailed credit research is undertaken for each investment in the portfolio which includes qualitative and quantitative assessment of various issuers.

There is continuous monitoring done by Credit team for any change in the rating of the issuers and necessary action wherever required are taken.

Rating wise exposures are placed and discussed in Investment Committee as well.

Early warning signals (EWS) are assessed on continuous basis. Alerts are discussed in Investment Committee.

Concentration limits viz. counterparty wise, group wise and sector wise are monitored continuously on daily basis.

For Fund's portfolio of assets by rating agency category: **Refer Table 9**

-Concentration Risk
When a Mutual Fund Scheme, by mandate, restricts its investments only to a particular sector; there arises a risk called concentration risk. If the sector, for any reason, fails to perform, the portfolio value will plummet and the Investment Manager will not be able to diversify the investment in any other sector. Investments under this scheme will be in a portfolio of diversified equity or equity related stocks spanning across a few selected sectors. Hence the concentration risks could be high. There are various concentration limits at issuer, group, sector adhered to by the Fund Managers which helps diversifying the exposure, hence mitigating the concentration risk
The Fund manager attempts to mitigate concentration risk by investing in sufficiently large number of companies within the specified sector space, so as to maintain optimum diversification and keep stock specific concentration risk relatively low.**Refer Table 10**

-Write off policy
Financial assets are written off either partially or in their entirety only when the Fund has stopped pursuing the recovery. Any subsequent recoveries are credited to impairment on financial instrument in Revenue Account.

-Expected Credit Loss principles
In accordance with Ind AS 109, the scheme uses 'Expected Credit Loss' (ECL) model, for evaluating impairment of financial assets other than those measured at fair value through profit and loss (FVTPL).

Expected credit losses are measured through a loss allowance at an amount equal to:
- The 12-months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date); or
- Full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument) to the extent of receivables from issuers.

For receivables, the schemes applies 'simplified approach' which requires expected lifetime losses to be recognised from initial recognition of the receivables (apart from receivables from issuers). The Fund has determined based on historical experience and expectations that the ECL on its receivables is insignificant and was not recorded. At every reporting date, these historical default rates are reviewed and changes in the forward-looking estimates are analysed.

Cash and Cash Equivalents and Balances with Bank
The schemes hold cash and cash equivalentsand other bank balances, the credit worthinessof such banks and financial institutionsis evaluatedby the management on an ongoing basis and is considered to be high and accordingly it carries low credit risk and hence expected credit loss is immaterial.

Other Financial assets
Other financial assets include security interest receivable and other deposits which has low credit risk as they are settled in short term and there has been no significant increase in the risk of default since initial recognition hence expected credit loss is immaterial.

The main concentrationof credit risk to which the scheme is exposed arises from the schemes's investmentsin Corporate Bond, Certificates of deposit, Commercial paper, State GovernmentSecurities and Central GovernmentSecurities. These classes of financial assets are not subject to IND AS 109's impairment requirements as they are measured at FVTPL. The carrying valueof these assets represents the scheme's maximumexposure to credit risk on financial instruments not subject to the Ind AS 109 impairment requirements on the respective reporting dates. Hence, no separate maximum exposure to credit risk disclosure is provided for these instruments.

-Derivatives
Refer Table 11 which shows an analysis of derivative assets and derivative liabilities outstanding as at March 31, 2026 and March 31, 2025.

The schemes are also exposed to credit risk on cash and cash equivalents, balances with banks, derivative instruments recievables and other financial assets. These instruments carry very minimal credit risk based on the financial position of parties and Fund's historical experience of dealing with the parties. No assets are considered impaired and no amounts have been written off in the period.

c.) Liquidity Risk

Liquidity risk is the impact of liquidating the portfolio to fund redemption obligations.The Fund's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Fund's reputation.

Schemes with investment in Equity and Fixed Income securities are susceptible to Liquidity risk, which represents the risk of difficulty in unwinding assets/positions in an adequatetime frame with limited market price impact, due to nature of the market i.e. over the counter, insufficient market depth (event based or otherwise) or a market disruption/dislocation, which may lead to a failure to pay out investor redemptions or other liabilities .

For open ended debt scheme, Kotak Mahindra Mutual Fund uses the following measures to manage Liquidity Risk management:

(i) Kotak Mahindra Mutual Fund adopts the Liquidity Risk Management framework mandated by SEBI and AMFI which helps estimates liquidity requirement by determining liquidity risk arising from the liability side and tries to covers all potential liquidity risk scenarios up to agreed confidence interval and has mandated remedial measures both for managing the risk on an ongoing basis (LR & LCR) as well as action plan in case there is a difference between actual outcome and projected outcome. The Liquidity risk management framework primarily evaluates the Asset Liability Mismatch (ALM) which addresses the gap in the estimated potential liquidity requirement over a 30-day period & 90-day period compared with investment / assets liquidity to meet the potential liability.
(ii) Kotak Mahindra Mutual Fund has enabled Swing Pricing policy for specified open ended debt scheme to help in case of a severe dysfunction at market level, the Swing Pricing offers the contingency plan in case of extreme exigencies.
(iii) Kotak Mahindra Mutual Fund participates by investing through specified open ended debt schemes in the Corporate Debt Market Development Fund (CDMDF). The objective of the CDMDF is to help to develop the corporate debt market by providing backstop facility at the time of market dislocation to benefit the wider corporate debt market. The primary motive to set up a back stop facility is to instil confidence amongst the participants in the corporate debt/bond market during times of market dislocation and to enhance the secondary market liquidity. Further, in times of market dislocation, the aforesaid specified debt-oriented schemes of Kotak Mahindra Mutual Fund shall have access to sell corporate debt securities held in the portfolio and CDMDF shall purchase listed corporate debt securities from the said schemes. The trigger and period for which the backstop facility will be open shall be as decided by SEBI.

The Scheme manages liquidity risk by maintaining adequate reserves, banking facilities and by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities. Additionally, adequate borrowing facilities are available to take care of redemption pressures either through TREPS borrowing or Bank borrowing.

In respect to equity schemes, Equity markets are typically liquid, stocks forming part of the portfolio can be easily sold in case of huge / unexpected redemptions. Liquidity stress test of equity schemes is monitored by assessing the "time it would take to liquidate the position."

Refer Table 12 shows the maturity analysis of financial liabilities of the Fund based on contractually agreed undiscounted cashflows.

10 Offsetting Financial Assets and Financial Liabilities
Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if, and only if, there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the asset and settle the liability simultaneously. The Scheme has not offset any financial assets and financial liabilities during the year.

All expenses are accounted for on accrual basis.

As per SEBI Circular SEBI/HO/IMD/DF2/CIR/P/2918/137 dated October 22,2018 all scheme related expenses as per Regulation 52 of the Regulation are required to be paid from the Scheme only within the regulatory limits and not from the asset management company with the effect from the date of the said circular.

Total Income - Net of Brokerage and transaction cost incurred at the time of Purchase/Sale of securities, Finance cost.

Total Expenses - Brokerage and transaction cost, Finance cost is being excluded in the percentage computation of Total Recurring Expense and Total Recurring Expenses for both Direct and Regular Plans.

^ Annualised

NA - Not Applicable

17 Aggregate Value of Purchases and Sales of Investments

The aggregate value of investments (excluding reverse repo with RBI & TREPS-Triparty repo) purchased and sold (including redemptions) during the year / period and their percentage of the respective average daily net assets are as follows:

	2025-26				*2024-25*			
Scheme	Purchases (Rs. Lakhs)	% of average daily net assets	Sales (Rs. Lakhs)	% of average daily net assets	*Purchases (Rs. Lakhs)*	*% of average daily net assets*	*Sales (Rs. Lakhs)*	*% of average daily net assets*

24 Investor Education and Awareness Fund

In accordance with SEBI (Mutual Funds) Regulations, 1996 and guidelines issued thereunder, 0.02% p.a. of daily net assets being part of total recurring expenses is set aside in each Scheme for investor education and awareness fund.(IEAF) 50% of the amount so set aside towards IEAF is transferred to AMFI and balance 50% is transferred to a separate bank account which would be utilized towards investor education and awareness initiatives taken by the Mutual Fund / AMC.

Pursuant to SEBI circular dated May 23, 2022, w.e.f. July 01, 2022, the limit of 0.02% p.a. has been reduced to 0.01% p.a. in case of ETFs/Index Funds and for Fund of Funds (FoFs) investing more than 80% of its NAV in the underlying domestic funds no IEAF needs to be set aside.

The details of investor education and awareness amount outstanding are as follows:-

Less Than Rs 0.005 Lakhs
* Other Income includes Rebate, Interest received on Delayed RTGS and income arising from REIT/InvIT corporate actions.

28 Initial Contribution
The initial contribution of Rs.2.50 Lakh made by KMBL is recorded in the books of account of KMTC.

29 Segment Reporting:
The Schemes are primarily engaged in the business of investing amounts received from investors as unit capital, in accordance with their investment objectives to generate returns. There is no distinguishable component of the fund engaged in providing services in a different economic environment. The company has no offices outside India and there are no reportable geographical segments.

30 Capital Management

The Fund is not subject to externally imposed capital requirements and has no restrictions on issue and redemption of shares. The Fund's objective for managing capital are:
-To invest the capital in investments in order to meet its objective.
-To achieve consistent returns while safeguarding capital by investing in a diversified portfolio,
The management of the Fund's capital position is undertaken by the Investment Manager.

31 As per SEBI circular “New category of Mutual Fund schemes for Environmental, Social and Governance (“ESG”) Investing and related disclosures by Mutual Funds” dated 20th July 2023 read with SEBI letter dated 8th February 2022, A ‘Fund Manager Commentary’ along with the additional disclosures with respect to engagements undertaken by Mutual Funds for ESG schemes is being disclosed in the Annual Report of the ESG schemes.

Refer - Annexure 2

32 Details of Total Expense Ratio (TER) of Scheme’s investments in Overseas Mutual Funds is disclosed on the website https://www.kotakmf.com/Information/ statutory-disclosure.
